N.B.—Provinces named in the first and last columns include their chief port or ports. "Madras ports" includes the ports of Madras, Pondicherry (exclusion of sea ports from Non-British Ports and Foreign countries), Negapatam, Tuticorin, Calicut, Cocanada, Viragapatam, Cuddalore, Chichin, Tellicherry, Cannanore, Masulipatan, Mangalore, Quilon, Porto Novo, and Badagura. The last eight ports were added from 1st April 1909

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 27th April 1911, based on the Indian Daily Weather Reports of the period.**

1. The disturbance which was situated over Burma towards the end of last week disappeared on the 20th, and rainfall in Upper Burma practically ceased. In northeast India rain continued until the 21st, but subsequently only scattered falls occurred. Weather was somewhat unsettled in Baluchistan and the extreme north throughout the week, and light precipitation, which took the form of snow in parts of Kashmir, was reported.

2. Temperature was low in Burma until the 21st, and in the greater part of northeast India until the 22nd. It was unusually low in northwest India on the 23rd, 24th and 25th, and on the 26th was more than 20° below normal in parts of Baluchistan.

3. *Burma*.—Fairly general but light rain fell in Tenasserim on the 22nd, and scattered falls were reported in the south on most days.

*Northeast India, including Orissa*.—Rainfall was fairly general in Eastern Bengal and Assam, Bengal proper and Bihar on the 20th, and in Orissa and Chota Nagpur on the 21st. Only a few light falls occurred on other days.

*The United Provinces, Central India and the Central Provinces*.—A few light falls of rain were reported in the United Provinces, and isolated falls in the Central Provinces.

*Northwest India*.—Light precipitation occurred in Baluchistan, the North-West Frontier Province, the Punjab and Kashmir. It was local in the Punjab, East and North, and in Kashmir on the 22nd, and general in the North-West Frontier Province on the 24th; on other days a few falls only were reported.

*The Peninsula*.—The usual hot weather thunderstorms occurred, accompanied by rain.

4. The largest amounts of rain during the week were as follows:

April 20th. Calcutta 1·46", Saugor Island 1·06", Jessore 2·11", Burdwan 2·42" and Darbhanga 1·28".

" 21st. False Point 1·09", Cuttack 1·21" and Gopalpur 1·16".

" 22nd. Cochin 1·26".

" 23rd. Cochin 2·60".

" 24th. Port Blair 1·08", Mercara 2·84" and Trivandrum 1·05".

" 26th. Jalpaiguri 1·46".

5. Rainfall during the week was above normal in Bengal proper, Orissa, Chota Nagpur, Bihar, the Punjab Southwest, the North-West Frontier Province, Baluchistan, and on the Madras coast north; normal in the United Provinces, the Punjab East and North, Sind, Rajputana, Gujarat, Central India East, Malabar and the Madras Deccan; largely below normal in Assam; and elsewhere in slight to moderate defect. For the period 2nd December 1910 to 27th April 1911 rainfall has been in large excess in the United Provinces West, the Punjab, the North-West Frontier Province, Baluchistan, Sind and Rajputana West; in moderate excess in Burma, the United Provinces East, Kashmir, Gujarat and Central India East; about normal in Eastern Bengal and Assam, Bengal proper, Orissa, Bihar, Rajputana East, and Berar; and in moderate defect in the Central Provinces, the Bombay Deccan, Hyderabad, Malabar and Madras.

DIVISION.	RAINFALL DATA FOR WEEK ENDING ON 27TH APRIL 1911.			RAINFALL DATA FROM 2ND DECEMBER 1910 TO 27TH APRIL 1911.				
	Actual rainfall in inches.	Normal rain- fall in inches.	Excess or defect in inches.	Actual rainfall o season to date in inches.	Normal rainfall in inches.	Excess or defect in inches.	SEASONAL PERCENTAGE DEPARTURE FROM NORMAL.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,  
22nd April 1911.

**Burma.**—All districts report rain. Ploughing for summer rice has begun. Cultivation of spring rice continues. Harvesting of tobacco and of island crops is in progress. Standing crops are in good condition. Variations in the price of unhusked rice are unimportant.

**Eastern Bengal and Assam.**—The Rainfall during the week was general, being heavy at some stations, near the Bay and on the hills and moderate elsewhere. It has facilitated progress in the sowing of jute and rice and has improved prospects of standing crops. The condition of the mango crop is generally fair but an eight-anna crop is expected in Malda. The average price of common rice shows a slight tendency to fall. Cattle disease is prevalent in Dacca, Chittagong, Sylhet, Goalpara, Darrang and the Jaintia and Naga Hills.

**Bengal.**—The rainfall during the week was general over the Province. The fall was moderate in Burdwan, Midnapore, Hooghly, Howrah, the 24-Parganas, Nadia, Jessore, Khulna, Darbhanga, Purnea, Darjeeling, Cuttack, Balasore, Manbhum and Cooch Behar and light in the remaining districts. Preparation of lands for jute and other autumn crops and planting of sugarcane are going on. Sowing of jute and early paddy has commenced in Burdwan, the 24-Parganas, Nadia, Jessore, Khulna and Purnea. Harvesting and threshing of spring crops still continue in Bihar. The condition of standing crops is good. The price of common rice has risen in Murshidabad, Gaya, Saran and Darbhanga and has fallen in Jessore, Champaran and Monghyr. Cattle disease is reported from Darbhanga, Purnea, the Sonthal Parganas, Puri, Sambalpur, Hazaribagh, Palamau and Manbhum. Scarcity of water is reported from parts of Burdwan and the Sonthal Parganas. Fodder is sufficient throughout the Province except in parts of the latter district.

**United Provinces.**—Light rain averaging half an inch fell in the Himalayan districts and a few showers in south Oudh and the south-eastern districts. Extra crops are being irrigated and are doing well. Prospects are generally good. Harvesting continues in the north-western districts and elsewhere threshing and winnowing. Sixteen districts report sporadic cattle disease but the general condition of stock is good. Fodder and supplies are ample. Prices have fallen in twelve and have risen in five districts. Elsewhere prices are practically stationary.

**Punjab.**—Light rain has fallen in all districts except Rohtak, Gurgaon and Delhi. Spring crops are being harvested. The condition and prospects of standing crops are good to average. Sowings of extra spring and autumn crops continue. Prices are easy and generally unsettled. The condition of cattle is generally good. Fodder is sufficient except in Murree.

**North-West Frontier Province.**—Showers fell all over the Province except Hazara. The condition of standing crops is average. Sowings of extra spring and autumn crops are in progress. Planting of sugarcane still continues in the Bannu district. Harvesting of *sarshaf* and barley in Peshawar and of oilseed crops in Dera Ismail Khan is in progress. The expected outturn is reported to be average. The fodder and water supply is sufficient throughout the Province. There is no irrigation from the Paharpur canal in the Dera Ismail Khan district. The condition of cattle is generally good. The public health is generally good. Prices of food grains, except gram, show a slight tendency to fall. Prices:—wheat 14½ to 20½, gram 20½ to 30, maize 18½ to 30½ and *bajra* 22½ to 24½ seers per rupee.

**Jammu.**—Rain slight. Prices are fluctuating. Wheat sells from 12 to 19 and maize from 18 to 30 seers per rupee. The condition of standing crops is fair. Fodder is sufficient.

**Kashmir.**—The weather was bright and partially rainy at nights and beneficial to spring crops. Fodder is sufficient. Prices are unchanged.

**Rajputana.**—Rainfall 23 cents in Bharatpur and slight in Karauli and Jaipur. Harvesting and threshing of spring crops are in progress. Standing crops and outturn are fair to good. Cattle disease is prevalent in one district of Banswara. Fodder is sufficient. Prices have risen 8 chataks in Jaisalmer, 1 seer each in Partabgarh and Dholpur, 5 chataks in Jaipur and have fallen 2 seers in Bikaner, 12 chataks in Marwar, 3½ seers in Tonk, 2½

seers in Bundi and 13 chataks in Alwar. Prices are steady or show slight variations elsewhere.

**Central India.**—Rainfall *nil*. The weather is normal. Reaping of spring crops has been completed. The outturn of wheat is excellent and that of grain fair. Land is under preparation for autumn crops. Dry fodder is abundant. Cattle disease prevails in Bundelkhand and Baghelkhand. Prices are generally falling in Gwalior, low in Bhopal, continue high in Baghelkhand, fluctuating in some parts of Indore, and steady elsewhere. Extraction of opium has been completed and the outturn is generally good.

**Central Provinces.**—The days are hot but the nights and the mornings continue to be cool. Harvesting of spring crops has been almost completed and threshing and winnowing are in full swing everywhere. Preparation of land for sowing of the ensuing season's crops is in progress in several districts. The supply of fodder and water is adequate. Agricultural stock is in good condition. Prices:—the prices of the staple food grains remained stationary or fluctuated slightly exhibiting a downward tendency.

**Feudatory States.**—Threshing and winnowing of spring crops continue. Fodder and water are sufficient. Prices show no marked variations.

**Bombay.**—Slight rain fell during the week in parts of Larkana and Dharwar. Standing crops are in good condition. Harvesting of spring crops is progressing in parts of Sind, Ahmedabad, Thana, Colaba, Satara, Dharwar, Baroda, Cutch and Savantvadi. Threshing continues in parts of Sind, Broach, Kanara, the Deccan and Mahi Kantha. Estimates of the outturn are generally fair to good. Cotton-picking is progressing in parts of Gujarat, the Karnatak, Baroda, Cutch, Rewa Kantha and Kolhapur. Preparation of lands for the next season is generally progressing. The fodder supply is adequate. Agricultural stock is deficient in parts of the Deccan and generally in good condition. Water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in Sukkur; fallen in Hyderabad, the Upper Sind Frontier, Sholapur, Satara and Belgaum and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 3 to 25 per cent, in Gujarat 2 to 30 per cent, in the Konkan 11 to 25 per cent, in the Deccan 11 to 31 per cent and in the Karnatak 24 to 37 per cent less than the normal.

**Hyderabad.**—During the week 80 cents and 2 inches 8 cents of rain fell in the Mahbubnagar and Nalgondah districts respectively. The rain was injurious to the late rice crop. The average for the Dominions was three cents. Harvesting of spring crops continues in very few places. Spring cotton is somewhat damaged by rats in parts of the Raichur district. Cattle disease is reported in 5 and fodder scarcity in 4 talukas. Prices:—wheat 8, coarse rice 7 and *juar* 13½ seers per rupee. White *juar* is selling at 11 seers in Hyderabad City and yellow *juar* at 12. The highest price in districts is 9 seers in Warangal and the lowest 24 seers in Mahbubnagar.

**Mysore.**—Prices of food grains are generally steady. Markets are well supplied. The outturn of the harvests and prospects of the season are good. Cattle are healthy. Water and fodder are available.

**Coorg.**—Rainfall 3 inches 17 cents. Prices of food grains are normal. Water and fodder for cattle are sufficient. The public health is fair.

**Madras.**—No rain fell during the week in the Vizagapatam littoral, the Deccan (except Cuddapah), Nellore, Madras, Malabar and South Canara. The rainfall was light to fair elsewhere. Irrigation supplies are sufficient in Vizagapatam, Kistna, Guntur, Anantapur, Cuddapah, North Arcot and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are fair to good but some in parts of Chingleput have withered or are withering. Coffee in parts of the Nilgiris has been affected by bug. Harvests continue with outturn fair to normal generally. Pasture is sufficient in Ganjam, Madras, South Arcot, Tanjore and the Nilgiris. Fodder is available. The condition of cattle is generally good. The price of rice is stationary in eighteen districts, has fallen in three and has risen in four. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eleven districts, has fallen in seven and has risen in five. *Cholam* is stationary in five districts, has fallen in three and has risen in seven. *Cumbu* is stationary in seven districts, has fallen in three and has risen in seven. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is apparently satisfactory and employment is readily available. Grain stocks are generally sufficient.

SUPPLEMENT TO  
**The Gazette of India**

No. 18.]

CALCUTTA, SATURDAY, MAY 6, 1911.

**OFFICIAL PAPERS.**

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

L. PORTER,  
Secretary to the Government of India.

No. 2—115—7.

GOVERNMENT OF INDIA.  
DEPARTMENT OF REVENUE AND AGRICULTURE.

LAND REVENUE.

*Dated Simla, the 3rd May 1911.*

**READ—**

The reports received from Local Governments on the administration of the Co-operative Credit Societies Act (X of 1904) during the year 1909-10.

The proceedings of the conference of Registrars of Co-operative Credit Societies held at Allahabad in January 1911.

**RESOLUTION.**

The total number of societies of all kinds at the end of the year 1909-10 was 3,498, showing an increase of 1,490 or 74 per cent, during the year. Rural societies increased by 1,379, urban societies by 94, and central societies by 17. The number of members increased by 25 per cent from 184,889 to 231,000, and the capital by 53 per cent from Rs. 80,65,111 to Rs. 1,24,00,000.

The following table shows the figures for the last four years and indicates the rate of increase in the last year :—

	1906-07.	1907-08.	1908-09.	1909-10.	Percentage of increase during the last year.
<i>Number of Societies.</i>					
Central ... ..	14	7	■	32	113 %
Urban ... ..	89	149	227	321	41 %
Rural ... ..	740	1,301	1,766	3,145	78 %
Total ... ..	843	1,357	2,000	3,498	74 %
Number of members ... ..	80,844	142,160	184,889	230,898	25 %
<i>Capital.</i>					
Loans from private persons ... ..	Rs. 6,55,092	12,42,495	24,93,814	34,82,691	39 %
Do. other societies ... ..	2,40,425	5,84,765	15,96,611	30,16,106	88 %
Share capital ... ..	5,55,805	9,25,928	14,77,264	23,08,842	56 %
Deposits by members ... ..	5,76,025	9,19,523	16,18,018	25,33,317	56 %
State aid ... ..	2,84,738	8,51,816	6,86,143	7,21,775	5 %
Reserve ... ..	58,598	79,559	1,99,271	3,36,451	70 %
Total ... ..	23,71,683	44,14,086	80,65,111	1,23,97,683	53 %
<i>Expenditure.</i>					
Loans repaid to private persons ... ..	1,51,185	4,01,973	14,10,328	16,04,257	14 %
Loans issued to members ... ..	23,83,971	36,93,018	59,99,924	79,62,295	32 1/2 %
Purchase of raw material and stores ... ..	3,15,879	3,90,665	6,74,383	7,55,328	12 %
Profits ... ..	1,12,614	1,80,916	3,26,265	4,71,906	45 %
Total ... ..	29,63,449	46,66,565	84,10,895	1,07,93,886	29 %

These results are in every way satisfactory, especially in view of the fact that in most provinces the Registrars have very properly discouraged any undue haste in the expansion of the movement.

2. Almost from the beginning of the movement under the Act of 1904, instances in which that Act required amendment have been evident, and finally, on the recommendation of the Fourth Conference of Registrars, it was decided to undertake the amendment of the Act. In the course of amending it, it was found simpler to reconstruct it altogether, and a new Bill was introduced into the Viceroy's Legislative Council in March 1911. The chief features in which the Bill differs from the existing Act are the classification of societies as societies with unlimited and limited liability instead of as rural and urban societies; the extension of the Act to societies other than credit societies; the permission accorded to some societies, with unlimited liability but with share capital, to distribute profits; and the provision for societies of which other societies should be members. Some other minor alterations of policy have also been incorporated, but certain suggestions which have been at times put forward, such as those for allowing minor heirs to become members, for the abolition of the residential qualification in societies of unlimited liability, and for giving special powers to societies to recover loans, have not found a place in the Bill. The Bill has been published for criticism and will subsequently be referred to a Select Committee.

3. A conference of Registrars—the Fifth Annual Conference—was held in January 1911. It was the first held away from the headquarters of the Government of India, and took place at Allahabad in connection with the Industrial Exhibition. It was attended by the Registrars of all provinces, except Burma, and by a number of visitors. Reports of general progress from the provinces showed that there was an extraordinary diversity in the lines of development followed in different parts of India, and not a small advantage of these conferences lies in the opportunity they afford for the experts of one province to hear at first hand and to enquire further about special developments evolved in other places. With diversities of race, tradition and custom, so great and so many as are to be found within British India and the Native States of India, any attempt at uniformity must fail. Uniformity is not to be found even in the European countries, where the movement originated and has taken firmest hold, and nothing of the kind is contemplated in India. But just as the whole movement was started in imitation of European models, so experience in one province of India will afford examples to be followed or avoided in other parts of India.

4. Most provinces are now finding themselves able to attract sufficient funds without the need of State aid; and except in Eastern Bengal and Assam the amount of the subsidy given by the State is comparatively small. In several provinces, notably Madras, and also in Mysore, a beginning has been made with co-operation other than that of credit, and if the Bill lately introduced becomes law an impetus will be given to these.

5. With the increase in the number of societies the question of the constitution of central societies and unions has become one of great importance. In almost all the larger provinces an attempt has been made to organize some form of union or central bank, and a valuable report has been made by one of the sub-committees of the recent conference (in paragraph 24 of the proceedings) which gives a brief description of the various methods which have hitherto been adopted in the different provinces. By financing and controlling societies such unions and banks will not only strengthen the position of the societies, but will also supply a form of management preferable to that of minute official inspection. A certain degree of Government inspection and audit is inevitable, and in the case of the central societies such control will always be advisable, but emphasis must again be laid on the importance of avoiding anything like a general officializing of the co-operative movement in this country. In most provinces honorary organizers and lay help are becoming more readily available, and with access of expert knowledge this outside assistance is becoming of the greatest value.

6. A notable departure has been made in the Bombay Presidency, where, at the instance of the Government of Bombay, sanction has been given to the

formation by the Hon'ble Sir V. Thackersey and Mr. L. Samaldas of a central bank in the Bombay Presidency of which the object is to finance co-operative societies of all kinds. Capital is to be raised by shares and debentures, interest on the latter being guaranteed by the Local Government. The Bank is to lend to none but co-operative societies registered under the Act and loans made by it will be subject to the approval of the Registrar, and a limit is set to the amount of short-term deposits which may be received and held by the Bank. It is hoped that arrangements may be made for the early commencement of operations by the Bank, and its progress will be watched by the Government of India with great interest.

7. There is much in the proceedings of the Conference of Registrars which is of interest, and the recommendations made are commended to the attention of Local Governments, but there is no matter on which the orders of the Government of India are required.

To the Government of Madras.	
" "	Bombay.
" "	Bengal.
" "	the United Provinces
" "	the Punjab.
" "	Burma.
" "	Eastern Bengal and Assam.
" Hon'ble the Chief Commissioner, Central Provinces.	
" Chief Commissioner, Coorg.

*Secretary to the Government of India.*

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,  
29th April 1911.

**Burma.**—There was rain on the Arakan and Tenasserim coasts and in the north of Upper Burma. The sowing of summer rice and the reaping of spring rice have begun. Clearing for hill side cultivation continues. The harvesting of tobacco and of island crops is nearing completion. Standing crops promise well. The price of unhusked rice remains unchanged but is much above the normal.

**Eastern Bengal and Assam.**—Fairly heavy rain has fallen at a few stations near the northern frontier. In the remainder of the Province light to moderate rain has fallen at some stations but none at others. Harvesting of spring rice is in progress and a good outturn is expected. Sowing of rice and jute continues. Weeding of jute has commenced. Tea is doing well. Agricultural loans are being given in the Kishorganj and Sadar subdivisions in the Mymensingh district towards the relief of distress caused by the destruction of jute and broadcast paddy by floods last year. The average price of common rice is practically stationary. Cattle disease is reported in Malda, the Jaintia and Naga Hills, Goalpara, Kamrup, Darrang and Sibsagar.

**Bengal.**—The rainfall was heavy in Cooch Bihar. It was light in Burdwan, Bankura, Nadia, Jessore, Khulna, Monghyr, Purnea, Darjeeling, the Sonthal Parganas, Cuttack, Angul and Manbhum. There was no rain in the remaining districts. Preparation of lands and sowing of paddy and jute are going on but more rain is wanted in parts of Burdwan, the 24 Parganas, Nadia, Jessore and Puri. Threshing of spring crops still continues in parts of Bihar. The newly planted sugarcane crop and vegetables are doing well. The price of common rice has risen in Burdwan, Bankura, Midnapore, Khulna, Patna, Gaya, Shahabad, Saran, Cuttack, Angul, Sambalpur and Singhbhum and has fallen in Nadia and Puri. Cattle disease is reported from Midnapore, Nadia, Khulna, the Sonthal Parganas, Puri, Sambalpur, and from all the districts of the Chota Nagpur division except Singhbhum. Fodder is insufficient in Monghyr and Hazaribagh. Scarcity of water is reported from the latter district and also from Burdwan.

**United Provinces.**—The week was practically rainless. Harvesting continues in the north-western districts. Elsewhere, threshing and winnowing are in progress. Prospects are good. Sugarcane and extra crops are being irrigated and are doing well. Agricultural stock is in good condition though eleven districts report sporadic disease. Fodder and supplies are ample. Prices are generally stationary.

**Punjab.**—Light to moderate rain has fallen in Rawalpindi, Mianwali, parts of Sialkot, Shahpur and Lyallpur. Spring crops are being harvested and their outturn is generally good. Sowings of extra spring and autumn crops continue. The condition of standing crops is generally good. Prices are easy. Cattle are generally in good condition. Fodder is sufficient except in Murree.

**North-West Frontier Province.**—No rain fell during the week except slight showers in Dera Ismail Khan. The condition of standing crops is average. Sowing of extra spring and autumn crops is in progress. Planting of sugarcane is finished in the Bannu district. Harvesting of spring crops is in progress. The outturn of the oilseeds crop in the Dera Ismail Khan district is reported to be below the average. Slight hail fell in Dera Ismail Khan but did no damage to crops. The fodder and water-supply is sufficient throughout the province. There is no irrigation from the Paharpur canal in the Dera Ismail Khan district. Cattle are generally in good condition. The public health is generally good. Prices of food grains, except maize, show a slight tendency to fall. Prices:—Wheat  $14\frac{1}{8}$  to  $21\frac{1}{8}$ , gram  $20\frac{1}{8}$  to  $31$ , maize  $18\frac{1}{8}$  to  $29\frac{1}{8}$  and *bajra*  $22\frac{1}{8}$  to  $26\frac{1}{8}$  seers per rupee.

**Jammu.**—Rain *nil*. Prices are fluctuating. Wheat sells from 14 to 19 and maize from 15 to 20 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in Kathua. Fodder is sufficient.

**Kashmir.**—The weather was bright with slight rain during the week. Fodder is sufficient. There is no disease among cattle. Prices are unchanged.

**Rajputana.**—Rainfall varying from 20 to 66 cents fell in three Nizamats of Bikaner. There was slight rain at the Capital. Harvesting and threshing continue. Cattle disease is prevalent in the Banswara district. Fodder is sufficient. Prices have risen by 1 seer 11 chataks in Tonk, 1 seer 3 chataks in Bundi, 15 chataks in Alwar and 1 seer in Ajmer, have fallen by 1 seer each in Bikaner and Banswara and 9 chataks in Jaisalmer. Prices are steady or show slight variations elsewhere.

**Central India.**—Rainfall *nil*. The weather was normal. Reaping of spring crops has been completed and threshing and winnowing are in progress. The outturn is above the average. Lands are under preparation for autumn crops. Cattle disease prevails in Baghelkhand, Bundelkhand and Bhopawar. Prices are generally falling in Gwalior, low in Bhopal, fluctuating in Indore and Bhopawar and steady elsewhere. Extraction of opium has been completed and the outturn is generally good.

**Central Provinces.**—Threshing and winnowing of spring crops are well advanced all over the Provinces. Agriculturists are engaged in construction and repairs to field embankments in rice districts and in ploughing land for sowing of the next autumn crops. Pasturage and water are sufficient and cattle are doing well. Prices are practically unchanged.

**Feudatory States.**—Threshing and winnowing of spring crops are in full swing. Fodder and water are adequate. Prices are steady.

**Bombay.**—Slight rain fell during the week in parts of Kanara, Bijapur, Dharwar and Kolhapur. Standing crops have been damaged slightly by insects in Sukkur but are generally good elsewhere. Harvesting of spring crops is progressing in parts of Sind, Kaira, the Konkan, Satara, Dharwar, Baroda, Cutch, Rewa Kantha and Savantvadi. Threshing continues in parts of Sind, Kanara, the Deccan and Mahi Kantha. Estimates of outturn are generally fair to good. Cotton-picking is progressing in parts of Ahmedabad, Kaira, Broach, Dharwar, Baroda, Cutch, Rewa Kantha and Kolhapur. Preparation of land for next season is progressing generally. The fodder supply is adequate. Agricultural stock is deficient in parts of the Deccan but is generally in good condition. Water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in Larkana, the Upper Sind Frontier, Ratnagiri and Kanara and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 3 to 27 per cent, in Gujarat 2 to 30 per cent, in the Konkan 13 to 25 per cent, in the Deccan 11 to 31 per cent and in the Karnatak 24 to 37 per cent less than the normal.

**Hyderabad.**—Scattered showers fell in the Gulbarga, Raichur, Mahbubnagar, Medak and Nalgondah districts and general rain in Warangal during the week. The average rainfall for the Dominions was 4 cents. Harvesting of spring crops is almost completed. Water scarcity is reported in the Parbhani and Warangal districts. Cattle disease is prevalent in 5 and fodder scarcity in 3 talukas. Prices of grains show a tendency to fall. Prices:—Wheat 8½, coarse rice 7 and *juar* 14 seers per rupee. White *juar* is selling at 11 seers per rupee in Hyderabad City and yellow *juar* at 12. The highest price in districts is 9 seers in Warangal and the lowest 24 seers in Mahbubnagar.

**Mysore.**—The rainfall was good in Mysore and Hassan and slight elsewhere. Prices of food grains are generally steady and markets are well supplied. The outturn of the harvests and prospects of the season are good. Cattle are healthy. Water and fodder are available.

**Coorg.**—Rainfall five cents. Prices of food grains are normal. The public health is fair. Water and fodder are adequate.

**Madras.**—The rainfall during the week was good in the Nilgiris and Malabar, nil in Chingleput, Madras, South Arcot and Tanjore and light to fair elsewhere. Irrigation supplies are sufficient in Vizagapatam, Kistna, Guntur, Chittoor and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are fair to good but some in parts of Chingleput have withered and some in parts of Tinnevely require rain. Coffee in parts of the Nilgiris is affected by bug. Harvests continue with outturn fair to normal generally. Pasture is sufficient in Madras, South Arcot, Tanjore and the Nilgiris. Fodder is available. The condition of cattle is generally good. The price of rice is stationary in sixteen districts, has fallen in two and has risen in six. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eight districts, has fallen in nine and has risen in five. *Cholam* is stationary in nine districts, has fallen in two and has risen in four. *Cumbu* is stationary in ten districts, has fallen in four and has risen in two. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is apparently satisfactory and employment is available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

Secretary to the Government of India

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 4th May 1911, based on the Indian Daily Weather Reports of the period.**

1. Weather continued slightly unsettled in Baluchistan and the extreme north during the week, and light rain fell in Kashmir and the North-West Frontier Province. Rainfall was fairly general on the whole in Eastern Bengal and Assam, and from the 1st of May it extended into the northern half of Burma. A few falls were reported in the southern half of Burma, and thunderstorms, accompanied by rain, occurred here and there in the Peninsula.

2. Low temperatures prevailed over the central, north and northwest parts of the country until the 29th April, but affected only the extreme north on the two succeeding days: by the end of the week conditions had become nearly normal. Weather was cooler than usual in Eastern Bengal and Assam and in north Burma on the 2nd and 3rd of May.

3. *Burma.*—A few light to moderate falls of rain occurred in south Burma on most days. Local to fairly general rain fell in Upper Burma on the 28th of April and on the 1st, 2nd, and 3rd of May.

*Northeast India, including Orissa.*—Local rain fell in Assam on the 28th of April and scattered falls occurred on the 29th. During the rest of the week rainfall was fairly general in Assam and the eastern districts of Eastern Bengal.

*The United Provinces, Central India and the Central Provinces.*—Weather was dry except for two falls of rain at Jagdalpur.

*Northwest India.*—Precipitation occurred locally in Kashmir on the 27th of April; while a few light falls of rain were reported in the extreme north on the 30th, and in the North-West Frontier Province on the 2nd and 3rd of May.

*The Peninsula.*—The hot weather conditions gave less rain than usual, but scattered falls occurred daily.

4. The largest daily amounts of rainfall during the week were as follows:

April 27th. Cherrapunji 7·06", Bogra 1·37" and Jalpaiguri 4·90".

" 28th. Moulmein 3·54", Dibrugarh 2·18", Sibsagar 1·65", Cherrapunji 4·85" and Ootacamund 1·40".

" 29th. Dibrugarh 2·41" and Cherrapunji 4·58".

" 30th. Sibsagar 1·41".

May 1st. Cherrapunji 3·86".

" 2nd. Maymyo 1·24", Silchar 3·62", Cherrapunji 5·61", Mymensingh 1·46" and Darjiling 1·00".

" 3rd. Bhamo 1·84", Narayanganj 1·27" and Cherrapunji 1·22".

5. Rainfall during the week was in moderate excess in Assam; about normal in Eastern Bengal and Mysore; normal in Upper Burma; in moderate defect in Lower Burma, Bengal proper and Malabar; and in slight defect elsewhere.

J. H. FIELD,  
Offg. Director-General of Observatories.  
E. D. MACLAGAN,  
Secretary to the Government of India.

SIMLA;  
The 4th May 1911.

ANNUAL REPORT OF THE PATENT OFFICE FOR THE CALENDAR YEAR 1910.

No. 3188-90.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

GENERAL.

Simla, the 4th May, 1911.

RESOLUTION.

A Report by the Secretary under the Inventions and Designs Act, 1888 (V of 1888), on the working of the Act during the calendar year 1910, is published for general information :

No. 1410-P., dated Calcutta, the 25th April 1911.

From—H. G. GRAVES, Esq., Secretary under the Inventions and Designs Act,

To—The Secretary to the Government of India. Department of Commerce and Industry.

I have the honour to submit, for the information of the Government of India, the Annual Report of the Patent Office during the calendar year 1910.

2. The office, at 2 Bankshall Street, Calcutta, has been in my charge except between 21st April and 18th October when Mr. J. W. Meares, Electrical Adviser to the Government of India, officiated.

3. During the year 667 applications were made for leave to file specifications and 618 specifications were filed. The total number of applications under the present Act has been 10,872, and of specifications 8,508. Compared with 1909 the decrease in the number of applications has been 28, but there have been 115 more specifications filed. The amount received as continuance fees, by payment of which existing privileges are kept in force, has decreased by Rs. 2,750 but the total income of the office is better by Rs. 927-5-0.

4. The range of inventions covered by the applications was as wide as usual and the predominance in the railway and textile industries still persists. A rather noteworthy feature of the year has been the increase in the number of applications under the heading of cooking appliances, and that is directly traceable to the prize offered by Mr. David Yule for the best *chula* shown at the United Provinces Exhibition at Allahabad.

5. Of the 667 applications made during the year, 45 related to inventions that *prima facie* did not appear to be novel. In accordance with the practice that is now well established the state of public knowledge was pointed out to the applicant, and he was given an opportunity of amending his application. Including 11 cases pending from the previous year, the result has been that 13 applications were abandoned, 3 were finally refused and leave was granted in 27 cases, 13 being still pending. Altogether leave was granted on 493 of these 667 applications during the year, 10 were rejected, 26 abandoned and 138 were pending on December 31st. The percentage of these questioned, rejected and abandoned applications is fairly constant from year to year. 327 specifications were filed in respect of applications made during the year, while the balance 291 appertained to the applications of the previous years.

6. Exclusive privileges were kept alive after the fourth year by payment of prescribed fees in 663 cases, or 15 less than in the previous year, whilst 495, or 46 more than in 1909, ceased. Of the 8,508 specifications brought on the

register, 2,822 are now in force, an increase of 123 as compared with 2,699 at the end of last year. The appended table shows the comparative age and number of these privileges for the various years.

7. One application only was made for the extension of an exclusive privilege beyond the normal period of 14 years. After due consideration it was granted for seven years.

8. Thirty-six applications, including one held over from 1909, for the registration of designs were dealt with during the year, a decrease of fifteen as compared with 1909. Twenty-six of these designs were registered. One application was abandoned, one was held over for consideration, and 8 were refused. The latter included one picture, and six labels or trade marks which cannot be registered under the Inventions and Designs Act. The annual number of applications in respect of designs has varied between 171 and 15. The relatively high fee of Rs. 10 is prohibitive of any marked increase and it will be reduced when the new Act comes into force in 1912.

9. The work of the office has progressed satisfactorily and has been kept up to date during the year. One case only was referred to the law officers and any other expert advice that was necessary was obtained informally. The annual consolidated index of all inventions and designs, for which protection was sought or obtained during 1909, was issued early in the year. Corresponding volumes entitled "Inventions and Designs," are at this date available for the years 1905 to 1910 at the price of Re. 1 each. A consolidated subject-matter index of inventions in the years 1900 to 1908, together with a chronological list of applications 1900 to 1904, is also on sale at Rs. 2.

10. Progress was made during the year under review with the Bill for the amendment of the law relating to inventions and designs. The Bill after the sanction of the Secretary of State had been obtained, was introduced in the Imperial Council by the Hon'ble Mr. Robertson on 23rd March 1910. On 26th March 1910 it was published in English in the *Gazette of India* and subsequently in English and in Hindustani, Telegu, Malayalam, Tamil, Kanarese, Marathi, Gujarathi, Urya, Hindi, Bengali, and Sindhi in the Local Gazettes. During my leave in England I discussed the Bill with the Comptroller General of Patents in view of the latest procedure under the Patents and Designs Act in the United Kingdom. The opinions of the Local Governments were received and the Bill, modified in accordance therewith, was prepared before the end of the year. As the Act has now been passed its further history may here be given. The Bill, on 3rd January 1911, was referred to a Select Committee consisting of the Hon'ble Mr. Syed Ali Imam, the Hon'ble Mr. Macpherson, the Hon'ble Mr. Graves, the Hon'ble Sir V. D. Thackersey, the Hon'ble Mr. Graham, the Hon'ble Mr. Mudholkar and the Hon'ble Mr. Robertson. I was nominated as an additional Member of Council so as to serve on this Committee as the expert member. In Committee, in deference to opinion in India, a section was introduced under which a patent is liable to revocation if not worked in the country. Certain restrictions were however inserted to ensure that a patent should not be revoked unless there was a reasonable prospect of its being worked in India. The Select Committee reported on 23rd January 1911 and their report was presented by the Hon'ble Mr. Robertson in Council on the following day. On 1st March 1911 the report was taken into consideration and the Bill as amended was passed. The Indian Patents and Designs Act, 1911, will come into force on 1st January 1912.

*A.—Statement showing (a) number of specifications filed; (b) privileges kept in force by payment of continuance fees to end of the 5th to the 14th years; (c) privileges expired through non-payment of continuance fees at commencement of the 5th to the 14th years.*

B. ROBERTSON,  
Secretary to the Government of India.

SUPPLEMENT TO  
**The Gazette of India.**

No. 19.]

CALCUTTA, SATURDAY, MAY 13, 1911.

**OFFICIAL PAPERS.**

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

L. PORTER,

Secretary to the Government of India.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 11th May 1911, based on the Indian Daily Weather Reports of the period.**

1. Rainfall was fairly general in Assam during the week, and in Eastern Bengal during the middle portion of the week. From the 5th weather was somewhat disturbed in the extreme north, and precipitation occurred in the Punjab, the North-West Frontier Province and Kashmir. Rainfall occurred throughout Burma, and on the 8th, 9th and 10th wet weather had become nearly general in Tenasserim.

2. Temperature fell rapidly in the Punjab, Kashmir, and the North-West Frontier Province on the 6th, and on the 7th was more than  $14^{\circ}$  below normal locally in the extreme north. It rose rapidly on the 8th, and on the 9th was again about normal. Temperature was slightly high in northeast India at the close of the week.

3. *Burma.*—Some rain fell on the 4th; a few falls were reported on the 5th, 6th and 7th; and from the 8th, rainfall was nearly general in Tenasserim, while scattered falls were reported in Upper Burma.

*Northeast India, including Orissa.*—In Assam rainfall was general on the 7th and 8th, and fairly general during the rest of the week. In Eastern Bengal rainfall occurred in the southern parts on the 4th, a few falls were reported on the 7th, and general rain fell on the 8th. On the 5th the area of precipitation extended over deltaic Bengal, and on the 8th over Bengal proper.

*The United Provinces, Central India and the Central Provinces.*—Light falls of rain occurred at Jagdalpur on the 5th and at Dehra Dun on the 7th, but no other falls worthy of note were reported.

*Northwest India.*—A few light falls of rain occurred in the Punjab on the 4th, and in the Punjab and Kashmir on the 5th. On the 6th precipitation was local in both areas, and on the 7th it was nearly general in Kashmir. Light falls of rain were reported in the North-West Frontier Province on the 6th, 7th, 8th and 9th.

*The Peninsula.*—Thunderstorms gave scattered falls of rain each day.

4. The largest daily amounts of rain during the week were as follows:—

- May 4th. Barisal  $1'23''$ , Narayanganj  $2'11''$ , Mymensingh  $1'16''$  and Cochin  $1'55''$ .  
 „ 5th. Victoria Point  $2'52''$ , Mergui  $1'51''$ , Gauhati  $1'08''$ , Silchar  $2'05''$ , Narayanganj  $3'16''$ , Mymensingh  $1'35''$  and Chitaldrug  $1'05''$ .  
 „ 6th. Toungoo  $1'40''$ , Maymyo  $2'08''$ , Gauhati  $1'89''$ , Silchar  $1'07''$ , Chittagong  $2'33''$ , Barisal  $1'29''$ , Narayanganj  $2'14''$ , Jalpaiguri  $1'21''$  and Mercara  $1'17''$ .  
 „ 7th. Moulmein  $2'10''$ , Sibsagar  $1'24''$ , Silchar  $1'18''$ , Cherrapunji  $3'78''$ , Gulmarg  $1'80''$  and Kodaikanal  $1'06''$ .  
 „ 8th. Rangoon  $1'38''$ , Silchar  $1'38''$ , Cherrapunji  $3'28''$  and Mymensingh  $2'62''$ .  
 „ 9th. Victoria Point  $1'99''$ , Myitkyina  $1'44''$  and Cherrapunji  $1'51''$ .  
 „ 10th. Tezpur  $1'30''$  and Dhubri  $2'20''$ .

5. Rainfall during the week was markedly above normal in Eastern Bengal and Assam, and in moderate defect in Burma, Bengal proper, Orissa, Chota Nagpur, Bihar and Madras Southeast. For the period 28th April to 11th May it was in moderate excess in Eastern Bengal and Assam and in moderate defect in Burma, Bengal proper, Orissa, Chota Nagpur, Bihar, Malabar and Madras Southeast.

J. H. FIELD,

Offg. Director-General of Observatories.

E. D. MACLAGAN,

Secretary to the Government of India.

SIMLA;  
The 11th May 1911.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,  
6th May 1911.

**Burma.**—Most districts report rain. The sowing of summer rice and the reaping of spring rice are in progress. Hill side cultivation has begun. Plucking of tobacco has been completed. Harvesting of island crops is almost finished. Standing crops are in good condition. The price of unhusked rice remains unchanged.

**Eastern Bengal and Assam.**—The rainfall during the week was almost general being particularly heavy in the Surma Valley, light to moderate in the Rajshahi division and moderate to heavy elsewhere. The heaviest fall was 22 inches at Sunamganj. Sowing of autumn and winter rice and jute, planting of sugarcane and harvesting of spring rice are in progress. Weeding of jute is going on. Prospects of standing crops are favourable. The condition of silk worms is good. The average price of common rice shows a slight tendency to rise. Cattle disease prevails in Malda, the Khasi, Jaintia and Naga Hills, Goalpara, Kamrup, Darrang and Sibsagar.

**Bengal.**—Rain fell in Singhbhum, Cooch Bihar and in all the districts of the Burdwan, Bhagalpur and Orissa divisions except Howrah; the 24-Parganas, Monghyr and Puri. There was no rain in the rest of the Province. The fall was heavy in parts of Nadia, Jessore and Darjeeling and generally light elsewhere. Preparation of lands for the next season's crops and sowing of paddy and jute are going on but more rain is wanted in Howrah, the 24-Parganas and Ranchi. Standing crops are doing well. The price of common rice has risen in Burdwan, Bankura, Nadia, Jessore, Shahabad, Darbhanga, Monghyr, Purnea, Darjeeling and Cuttack and has fallen in Patna, Bhagalpur and Ranchi. Cattle disease exists in Burdwan, Patna, Shahabad, Puri, Sambalpur, and in all the districts of the Bhagalpur and Chota Nagpur divisions except Darjeeling and Singhbhum. Fodder is insufficient in Monghyr and Hazaribagh. Scarcity of water is reported from the latter district and also from Ranchi.

**United Provinces.**—No rain fell during the week. Harvesting continues in the hills and threshing and winnowing in the plains. Sugarcane and extra crops are being irrigated and are doing well. Harvesting of extra crops and sowing of cotton have begun in places. Cattle are in good condition though eleven districts report sporadic disease. Fodder and supplies are ample. Several districts report that the export of grain and oilseeds is beginning. Prices have fallen in ten districts and remain generally stationary elsewhere.

**Punjab.**—Light rain has fallen in Amritsar, parts of Hissar, Ambala, Jullundur, Sialkot, Shahpur, Rawalpindi, Mianwali, Lyallpur and Multan. Spring crops are being harvested and their outturn is generally good to average. Sowing of autumn crops continues. The condition of standing crops is generally good. Prices have risen slightly in some districts. Cattle are generally in good condition. Fodder is sufficient except in Murree.

**North-West Frontier Province.**—Rain varying from 6 cents in Bannu to 56 cents in Peshawar fell all over the Province except Hazara. The condition of standing crops is average. Sowing of extra spring and autumn crops is in progress. Spring crops are being harvested. The outturn of the oilseeds crops in the Dera Ismail Khan district is reported to be below the average. The fodder and water-supply is sufficient throughout the Province. There is no irrigation from the Paharpur canal in the Dera Ismail Khan district. The condition of cattle is good. The public health is generally good. Prices of food grains are fluctuating. Prices:—Wheat  $14\frac{1}{2}$  to  $22\frac{1}{2}$ , gram 10 to 32, maize  $15\frac{1}{2}$  to  $29\frac{1}{2}$  and *bajra* 23 to  $28\frac{1}{2}$  seers per rupee.

**Jammu.**—No rain fell during the week. Prices are fluctuating. Wheat sells from 15 to 19 and maize from 18 to 30 seers per rupee. The condition of standing crops is good. Cattle disease of mild type prevails in Inderwas, Madal and Garhinanda. Fodder is sufficient.

**Kashmir.**—It rained occasionally during the week. Hail stones fell on one day which caused some damage to spring crops and fruit. Fodder is sufficient. There is no disease among cattle. Prices are unchanged.

**Rajputana.**—Slight rain fell in the Ajmer district and in Kishangarh. Harvesting and threshing are in progress. Land is being prepared for autumn crops in Kotah and Jhalawar. Standing crops are fair to good. Cattle disease is prevalent in the Banawara district. Fodder is sufficient. Prices have risen by 4½ seers in Shahpura, 1 seer in Karauli and 12 chataks each in Jaipur, Bharatpur and Merwara, have fallen by 6 chataks in Jaisalmer, 2 seers 1 chatak in Tonk and 1 seer each in Sirohi, Banawara and Partabgarh and are steady elsewhere.

**Central India.**—Rainfall *nil*. The weather is normal. Reaping of spring crops is completed and threshing and winnowing are in progress. Land is under preparation for autumn crops. Considerable damage to wheat is reported in parts of Baghelkhand. Cattle disease prevails in Baghelkhand, Bundelkhand and Bhopawar. Prices are generally falling in Gwalior, are low in Bhopal, continue high in Baghelkhand and are steady elsewhere. Extraction of opium is completed and the outturn is generally good.

**Central Provinces.**—Threshing and winnowing of spring crops are in progress. Preparation of land for the ensuing season's autumn crops continues. The supply of fodder and water is adequate. Agricultural stock is in good condition. Prices are fluctuating slightly.

**Feudatory States.**—During the week Kanker had an inch of rain accompanied by hail. Threshing and winnowing continue. Fodder and water are sufficient. Prices remained fairly steady.

**Bombay.**—Slight rain fell during the week in parts of Kanara, Poona, Sholapur, Satara, the Karnatak and Kolhapur. Standing crops have been damaged slightly by insects in Sukkur but are generally good elsewhere. Harvesting of spring crops is progressing in parts of Sukkur, the Upper Sind Frontier, Dharwar, Baroda and Savantvadi. Threshing continues in parts of Sind, Kanara, Khandesh, the Deccan and Mahi Kantha. Estimates of outturn are generally fair to good. Cotton-picking is progressing in parts of Kaira, Belgaum, Dharwar, Baroda and Cutch. Preparation of land for next season is progressing generally. The fodder supply is adequate. Agricultural stock is deficient in parts of the Deccan but is generally in good condition. Water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have fallen in Larkana, Belgaum and Dharwar and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 3 to 27 per cent, in Gujarat 2 to 30 per cent, in the Konkan 13 to 25 per cent, in the Deccan 11 to 31 per cent and in the Karnatak 24 to 33 per cent less than the normal.

**Hyderabad.**—Slight showers fell during the week in isolated parts of the Nander, Gulbarga, Raichur, Usmanabad, Bidar, Medak and Warangal districts. The average rainfall for the Dominions was 6 cents. The late rice crop is being harvested. Lands are being prepared for autumn crops. Water scarcity prevails in Raichur, Rajura and Pakhal. Cattle disease is reported in 5 and fodder scarcity in 3 talukas. Prices:—Wheat 8½, coarse rice 7 and *juar* 14 seers per rupee. White *juar* is selling in Hyderabad City at 11 seers per rupee and yellow *juar* at 12. The highest price in districts is 9 seers in Warangal and the lowest 24 seers in Mahbubnagar.

**Mysore.**—The rainfall was good in Mysore, Shimoga and Chitaldrug and slight elsewhere. Prices of food grains are steady. Markets are well supplied. The outturn of

*Printed and Published for the GOVERNMENT OF INDIA, at the GOVERNMENT CENTRAL PRINTING OFFICE, Simla.*

the harvests and prospects of the season are good. Cattle are healthy except in parts of Hassan, Kadur and Shimoga. Water and fodder are available.

**Coorg.**—(Report not received.)

**Madras.**—Rainfall *nil* in the Vizagapatam littoral, Godavari, Guntur, Chingleput and Madras and light to fair elsewhere. Irrigation supplies are sufficient in Vizagapatam, Kistna, Guntur, Chittoor and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding, transplanting and manuring are in progress in parts. Standing crops are fair to good but some in parts of Chingleput and Ramnad have withered or are withering and some in parts of Tinnevely require rain. Coffee in parts of the Nilgiris has been affected by bug. Harvests continue with outturn fair to normal generally. Pasture is sufficient in Madras, South Arcot, Salem, Tanjore and the Nilgiris. Fodder is available. The condition of cattle is generally good. The price of rice is stationary in nine districts, has fallen in eight and has risen in eight. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eleven districts, has fallen in six and has risen in six. *Cholam* is stationary in six districts, has fallen in six and has risen in three. *Cumbu* is stationary in ten districts, has fallen in two and has risen in five. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is satisfactory and employment is available. Grain stocks are generally sufficient.

**Nepal.**—*Report for the quarter ending 15th April 1911.*—The rainfall for the period was 5.11 against 1.51 for the corresponding period of last year.

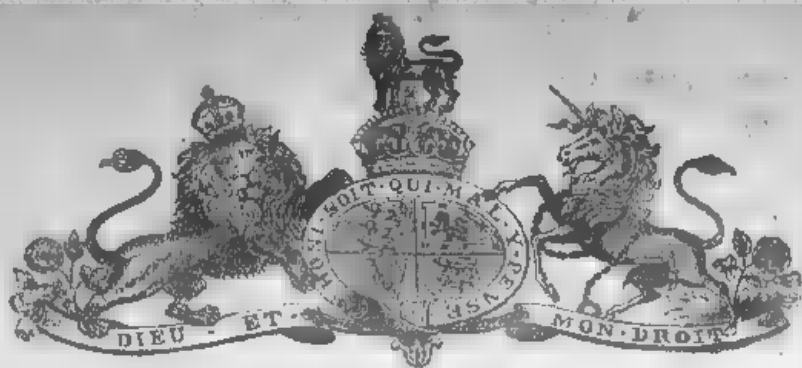

**January and February.**—The second crop of potatoes and winter vegetables were sown.

**March.**—In the Terai the spring crop (wheat, barley, gram and oilseeds) was harvested and the outturn was very good.

The sowing of the *makai* (Indian-corn) crop was commenced in the hills.

**April.**—The wheat-crop in the hills is thriving. The barley crop is being harvested. Peas are being gathered. The second crop of potatoes is being dug and fields are being prepared for paddy and *makai*. Red pepper and early rice are being sown. The prices of food grains are normal and the market is well stocked. The health of live stock is reported to be good.

E. D. MACLAGAN,  
*Secretary to the Government of India.*

SUPPLEMENT TO  
**The Gazette of India.**

No. 20. } SIMLA, SATURDAY, MAY 20, 1911.

**OFFICIAL PAPERS.**

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 18th May 1911, based on the Indian Daily Weather Reports of the period.**

1. A feeble advance of monsoon winds occurred in the Bay during the early part of the week, and on the 13th and 14th weather was disturbed in the neighbourhood of the Andamans. Weather was also slightly disturbed over the southeast of the Arabian sea on the 15th.

2. Temperature was high in the northwest of the Peninsula throughout the week, in northeast India during the early portion, and over the central and northcentral parts of the country towards the end. It was low in the extreme north on the 13th, in southern Burma on the 12th and 13th, and in northern Burma on the 16th and 17th.

3. *Burma.*—Fairly general rainfall was reported during the week. It occurred chiefly in the southern parts up to the 14th, but subsequently in the northern parts.

*Northeast India, including Orissa.*—Rainfall was fairly general in Assam except on the 14th, when a light fall at Jalpaiguri was the only one reported in northeast India. A few falls occurred in Eastern Bengal and scattered falls in Bengal proper.

*The United Provinces, Central India and the Central Provinces.*—Light rain fell at Jagdalpur on the 13th, and a few light falls occurred in the Central Provinces East on the 16th.

*Northwest India.*—Light falls of rain were reported in Baluchistan and the North-West Frontier Province on the 12th, in the North-West Frontier Province and Kashmir on the 13th, and in Kashmir on the 16th.

*The Peninsula.*—Rainfall was nearly general in Mysore and Malabar on the 15th. On other days the usual hot weather conditions gave scattered falls.

4. The largest daily amounts of precipitation reported during the week were as follows:—

- May 11th. Tavoy 1'08", Jalpaiguri 2'09" and Ootacamund 1'39".
- " 12th. Port Blair 1'80", Slipper Island 1'33", Dibrugarh 1'30", Gauhati 1'41", Mymensingh 1'21" and Mysore 1'02".
- " 13th. Monywa 4'07".
- " 14th. Kyaukpau 2'05" and Akyab 1'05".
- " 15th. Toungoo 1'05", Mandalay and Myitkyina each 1'46", Dhubri 2'11", Cherrapunji 1'07", Mysore 1'22", Calicut 2'95", Mercara 1'89" and Kodaikanal 1'38".
- " 16th. Toungoo 1'05", Maymyo 1'00", Mandalay 1'92", Silchar 1'29", Cherrapunji 5'07" and Bogra 1'04".
- " 17th. Moulmein 1'80", Kyaukpau 1'10", Myitkyina 2'25", Dibrugarh 2'92", Silchar 1'30", Cherrapunji 8'63" and Jalpaiguri 1'00".

5. Rainfall during the week was in marked excess in Mysore and Upper Burma, about normal in Eastern Bengal and Assam and in Malabar; and in marked defect in Lower Burma, Bengal proper, Orissa, Chota Nagpur, Bihar, Kashmir and the Madras coast north. For the period 28th April to 18th May, it was well above normal in Eastern Bengal and Assam and in Mysore; about normal in Upper Burma; and markedly below normal in Lower Burma, Bengal proper, Orissa, Chota Nagpur, Bihar, the United Provinces, the Punjab East and North, the North-West Frontier Province, Kashmir, the Central Provinces East, Hyderabad and Madras.

E. D. MACLAGAN,

Secretary to the Government of India.

SIMLA;

The 18th May 1911

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,  
13th May 1911.

**Burma.**—The rainfall was moderate in Lower and light in Upper Burma. Ploughing for cotton and early sesamum has begun. Cultivation of summer rice is in progress. Reaping of spring rice and harvesting of island crops are also almost completed. Standing crops as a whole are satisfactory. There are no important changes in the price of unhusked rice.

**Eastern Bengal and Assam.**—The rainfall was heavy in Sylhet and parts of the Assam Valley division and light to moderate elsewhere. Harvesting of spring rice is nearly finished. Sowing of jute and autumn and winter rice continues but weeding is retarded in some places on account of rain. Transplantation of sugarcane is progressing. Tea is doing well. Prospects of other crops are favourable. The average price of common rice shows a slight tendency to rise. Cattle disease prevails in Malda, the Khasi, Jaintia and Naga Hills, Goalpara, Kamrup, Darrang and Nowgong.

**Bengal.**—Rain fell in Darjeeling, the Sonthal Parganas, Angul, Ranchi, Manbhum, Cooch Bihar and in all the districts of the Burdwan and Presidency divisions. There was no rain in the rest of the Province. The fall was heavy in Cooch Bihar and in parts of Darjeeling and light elsewhere. Preparation of lands for the next season's crops and sowing of paddy and jute are going on but more rain is wanted for the purpose in Burdwan, Midnapur, Hooghly, Howrah, the 24-Parganas, Nadia, Jessore, Bhagalpur, Balasore and Singhbhum. The price of common rice has risen in Burdwan, Midnapore, Hooghly, Murshidabad, Patna, Champaran, Balasore, Puri, Ranchi and Manbhum and has fallen in Bankura, Jessore, Gaya, Shahabad, Monghyr and Bhagalpur. Cattle disease is reported from Midnapore, Nadia, Champaran, Monghyr, Purnea, the Sonthal Parganas, Puri, Sambalpur, and from all the districts of the Chota Nagpur division except Singhbhum. Insufficiency of fodder and water is reported from Hazaribagh.

**United Provinces.**—The week was practically rainless. Harvesting continues in the hills. Elsewhere, irrigation of sugarcane and extra crops and threshing of spring crops are in progress. Cotton and early rice are being sown in irrigated tracts. Prospects of extra crops are good. Cattle are in good condition though fifteen districts report sporadic disease. Fodder and supplies are sufficient everywhere. Grain and oilseeds are being exported from several districts. Prices are generally stationary but have risen slightly in nine districts.

**Punjab.**—Light rain has fallen in parts of Rawalpindi and Mianwali. Spring crops are being harvested and threshed and their outturn is generally good to average. Sowing of autumn crops continues. The condition of standing crops is good. Cotton has been damaged slightly by insects in parts of Sialkot. Prices are easy but show an upward tendency. Cattle are generally in good condition. Fodder is sufficient except in Murree.

**North-West Frontier Province.**—No rain fell during the week except 3 cents in Peshawar and 1 cent in Bannu. The condition of standing crops is average. Sowings of extra spring and autumn crops are in progress. Sowings of extra spring crops are finished in the Dera Ismail Khan district. Harvesting of spring crops is in progress. The outturn of the oilseeds crops in the Dera Ismail Khan district is reported to be below the average. Slight damage has been caused to crops by hail in a few villages of the Marwat tahsil in the Bannu district. The fodder and water-supply is sufficient throughout the Province. There is no irrigation from the Paharpur canal in the Dera Ismail Khan district. Cattle are

generally in good condition except in one village of the Marwat tahsil. The public health is generally good. Prices of wheat and gram show a tendency to fall. Prices:—Wheat 14½ to 22½, gram 19 to 34, maize 15½ to 29½ and *bajra* 23 to 28½ seers per rupee.

**Jammu.**—There was slight rain during the week. Prices are fluctuating. Wheat sells from 12 to 19 and maize from 16 to 30 seers per rupee. The condition of standing crops is good. Fodder is sufficient.

**Kashmir.**—It rained twice during the week which was beneficial to existing crops. Fodder is sufficient. There is no disease among cattle. Prices are unchanged.

**Rajputana.**—Slight rain fell in Bikaner Nizamat. Harvesting and threshing are in progress and lands are being prepared for autumn crops in a few States and in Merwara. Cattle disease is prevalent in the district of Banswara. Fodder is sufficient. Prices have risen by 8 chataks each in Shahpura and Dholpur, 1 seer 14 chataks in Jaipur, 1 seer each in Kishangarh and Ajmer and have fallen by 2 seers in Banswara, 1 seer 10 chataks in Tonk, 13 chataks in Bundi and are steady or show slight variations elsewhere.

**Central India.**—Rainfall *nil*. The weather is normal. Reaping of spring crops is completed and threshing and winnowing are in progress. Lands are under preparation for autumn crops. Cattle disease prevails in parts of Gwalior, Baghelkhand, Bundelkhand and Bhopawar. Prices are low in Bhopal, continue high in Baghelkhand, are fluctuating in Bhopawar and Indore and are steady elsewhere. Extraction of opium has been completed.

**Central Provinces (including Feudatory States).**—Threshing and winnowing are nearly completed. Fodder and water are sufficient. Cattle are healthy. Prices are steady.

**Bombay.**—Slight rain fell during the week in parts of Ratnagiri, Kanara, Ahmednagar, Satara, the Karnatak and Kolhapur. Standing crops are in good condition. Threshing of spring crops continues in parts of Sind, Khandesh, Nasik and Mahi Kantha. Preparation of lands for next season is progressing. The fodder supply is adequate. Agricultural stock is deficient in parts of the Deccan but is generally in good condition. Water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in Larkana and Bijapur and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 3 to 27 per cent, in Gujarat 5 to 30 per cent, in the Konkan 13 to 25 per cent, in the Deccan 11 to 31 per cent and in the Karnatak 25 to 36 per cent less than the normal.

**Hyderabad.**—Slight showers fell in parts of the Bir, Gulbarga, Raichur, Nizamabad, Mahbubnagar and Warangal districts and Hyderabad City. The late rice harvest is nearing completion. The average rainfall for the Dominions was 11 cents. Lands are being prepared for the next season's sowings. Fodder scarcity is reported in 3 and cattle disease in parts of 6 talukas. Prices:—Wheat 8½, coarse rice 7 and *juar* 14 seers per rupee, showing a rise of ½ seer in the price of wheat. White *juar* is selling in Hyderabad City at 12 and yellow *juar* at 13 seers. The highest price in districts is 9 seers in Warangal and the lowest 24 seers in Mahbubnagar.

**Mysore.**—The rainfall was good in Mysore and Hassan and slight elsewhere. Prices of food grains are steady. Markets are well supplied. Prospects of the season are good. Cattle are healthy. Water and fodder are available.

**Coorg.**—Rainfall 2 inches 19 cents. Ploughing for rice has commenced. Prices of food grains are normal. The public health is fair. Water and fodder for cattle are sufficient.

**Madras.**—The rainfall during the week was good in the Nilgiris, *nil* in Nellore, Chingleput, Madras, South Arcot and Tanjore and light to fair elsewhere. Irrigations supplies are sufficient in Vizagapatam, Guntur and the Nilgiris and insufficient in part

of other districts. Ploughing, sowing, manuring, weeding and transplanting are in progress in parts. Standing crops are fair to good but some in parts of Chingleput have withered and some in parts of Ramnad require rain. Coffee in parts of the Nilgiris has been affected by bug. Harvests continue with outturn fair to normal generally. Pasture is sufficient in Madras, South Arcot, Salem, Tanjore and the Nilgiris. Fodder is available. The condition of cattle is generally good. The price of rice is stationary in fourteen districts, has fallen in five and has risen in six. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eight districts, has fallen in ten and has risen in five. *Cholam* is stationary in six districts, has fallen in eight and has risen in one. *Cumbu* is stationary in six districts, has fallen in four and has risen in seven. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is satisfactory and employment is available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

SUPPLEMENT TO

# The Gazette of India

No. 21.]

CALCUTTA, SATURDAY, MAY 27, 1911.

## OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

L. PORTER,  
Secretary to the Government of India.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 25th May 1911, based on the Indian Daily Weather Reports of the period.**

1. Rainfall occurred daily in northeast India, Burma and the south of the Peninsula. At the end of the week there were slight indications that conditions were disturbed over the Arabian sea at a considerable distance from the west coast.

2. Temperature during the week was high in the central parts of the country and this condition extended at times into west Bengal, northwest India and the north of the Peninsula. In northeast India weather was on the whole cooler than usual.

3. *Burma.*—A few falls of rain were reported each day, and on the 19th and 24th light rain fell at all stations in Tenasserim.

*Northeast India, including Orissa.*—Rainfall was nearly general in Assam except on the 22nd and 23rd: on the latter date it almost ceased. It was on the whole fairly general in Eastern Bengal and extended at times into Bengal proper, Bihar and Orissa.

*The United Provinces, Central India and the Central Provinces.*—Occasional light falls of rain were reported.

*Northwest India.*—Light rain fell at Multan and Rajkot on the 21st, and some precipitation was reported from Kashmir on the 22nd and 23rd.

*The Peninsula.*—Rainfall was nearly general on the north Madras coast on the 20th, and along the west coast from Goa southwards on the 23rd and 24th. On other days the usual scattered falls occurred.

4. The largest daily amounts of precipitation reported during the week were as follows:—

- May 18th. Moulmein 4'33", Dibrugarh 1'11", Sibsagar 1'65", Cherrapunji 1'56",  
Narayanganj and Mymensingh each 1'12" and Bellary 1'03".
- " 19th. Dibrugarh 1'32", Sibsagar 1'40", Tezpur 1'24", Mymensingh 1'78",  
Mysore 1'60" and Kodaikanal 1'69".
- " 20th. Rangoon 1'15", Sibsagar 2'14", Cherrapunji 1'77", Barisal 1'15",  
Jalpaiguri 1'20", Darjiling 2'64", False Point 1'07", Masulipatam  
2'90" and Cocanada 1'24".
- " 21st. Toungoo 1'65", Minbu 1'52", Yamethin 1'18" and Bogra 2'32".
- " 22nd. Port Blair 1'68", Mergui 1'30", Tavoy 1'20", Mandalay 2'44", Monywa  
1'20", Narayanganj 1'06", Mymensingh 1'15", Dinajpur 4'35",  
Mysore 1'35", Madura 1'64" and Ootacamund 1'41".
- " 23rd. Toungoo 2'90", Narayanganj 1'12", Goa 2'10" and Cochin 3'35".
- " 24th. Akyab 2'38", Lashio 1'80", Tezpur 1'34", Shillong 1'10", Cherrapunji  
4'42", Narayanganj 1'81", Bogra 1'29", Dinajpur 1'03", Saugor Island  
1'05", Cuttack 1'03", Goa 3'67", Mormugao 2'35", Karwar 2'00" and  
Calicut 1'89".

5. Rainfall during the week was in very marked excess in the Konkan and was well above normal in Eastern Bengal and Mysore. It was in marked defect in the Bay Islands and Lower Burma. During the period 28th April to 25th May it was markedly above normal in Eastern Bengal and Assam, the Konkan and Mysore, and below normal in the Bay Islands, Lower Burma, Bengal proper, Orissa, Chota Nagpur, Bihar, Malabar and Madras Southeast.

J. H. FIELD,

Offg. Director-General of Observatories.

E. D. MACLAGAN,

Secretary to the Government of India.

SMALL:

The 25th May 1911.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,  
20th May 1911.

**Burma.**—The rainfall was general and mostly moderate. In Lower Burma ploughing for winter rice has begun in part of one district only. In Upper Burma reaping of spring rice and clearing of hill sides for cultivation continue. Ploughing for and sowing of early sesamum and cotton are progressing. Plucking of tobacco on island lands and gathering of miscellaneous crops are approaching completion. Standing crops are in good condition. The price of unhusked rice has risen slightly in five districts but is stationary elsewhere.

**Eastern Bengal and Assam.**—The rainfall was general being heavy in the Surma Valley districts and parts of the Assam Valley division and moderate elsewhere. Sowing of jute and autumn and winter rice is going on. Weeding has been retarded in places on account of rain. Transplantation of sugarcane continues. Prospects of standing crops on the whole are good. Some damage to autumn rice by insects is reported from north Lakhimpur. The average price of common rice shows a slight tendency to rise. Cattle disease prevails in Mymensingh, Cachar, the Khasi, Jaintia and Naga Hills, Goalpara, Kamrup, Darrang and Nowgong.

**Bengal.**—Rain fell in all the districts of the Province except in Saran, Monghyr, Palamau, Manbhum, Singhbhum and in all the districts of the Patna division. The fall was heavy in Cooch Behar, Darjeeling, Nadia, Muzaffarpur and Purnea, moderate in Burdwan, Jessore and Khulna and generally light elsewhere. Preparation of lands for the next season's crops and sowing of paddy and jute are going on but more rain is wanted for the purpose in Bankura, Midnapur, Hooghly, the 24-Parganas, Jessore, Darbhanga, Bhagalpur, Cuttack, Puri and Singhbhum. Standing crops are doing well. The price of common rice has risen in Jessore, Khulna, Gaya, Bhagalpur, Cuttack, Palamau and Cooch Behar and has fallen in Bankura, Murshidabad, Saran, Darjeeling and Manbhum. Cattle disease is reported from Burdwan, Midnapore, Hooghly, Nadia, Patna, Monghyr, Bhagalpur, the Sonthal Parganas, Puri, Sambalpur, Hazaribagh, Ranchi and Manbhum. Insufficiency of fodder is reported from parts of Birbhum and Hazaribagh. Scarcity of water is also felt in these two districts and in Palamau.

**United Provinces.**—No rain fell during the week. Threshing and winnowing in the plains and harvesting in the hills are nearing completion. Extra crops are coming into the market. Irrigation of sugarcane and extra crops continues and sowing of cotton, *jwar* and maize has begun in places. Fields are being manured and prepared for autumn crops. Nine districts report cattle disease, but the general condition of stock is good. Fodder and supplies are ample everywhere. Export of grain and oilseeds continues. Prices remain generally stationary.

**Punjab.**—Light rain has fallen in parts of Multan. Spring crops are being harvested and threshed and their outturn is good to average. Sowing of autumn crops continues. Standing crops are generally in good condition. Prices are generally unsettled. The condition of cattle is generally good. Fodder is sufficient except in parts of Rohtak and Rawalpindi.

**North-West Frontier Province.**—No rain fell during the week. The condition of standing crops is average. Sowings of extra spring and autumn crops are in progress. Harvesting of spring crops is in progress. The outturn of the oilseeds crops in the Dera Ismail Khan district is reported to be below the average. The fodder and water supply is sufficient throughout the Province. There is no irrigation from the Paharpur canal in the

**Dera Ismail Khan district.** The condition of cattle is generally good except in one village each of the Peshawar and Marwat tahsils. The public health is generally good. Prices except those of gram show a slight tendency to fall. Prices:—Wheat  $15\frac{1}{8}$  to  $22\frac{1}{8}$ , gram  $18\frac{1}{2}$  to 34, maize  $16\frac{1}{2}$  to 31 and *bajra*  $22\frac{1}{2}$  to  $28\frac{1}{2}$  seers per rupee.

**Jammu.**—No rain fell during the week. Prices are fluctuating. Wheat sells from 12 to 20 and maize from 16 to 30 seers per rupee. The condition of standing crops is fair. Fodder is sufficient.

**Kashmir.**—It rained once during the week which was beneficial to existing crops. Fodder is sufficient. There is no disease among cattle. Prices are unchanged.

**Rajputana.**—Harvesting of spring crops and preparation of land for autumn crops are in progress. More than ordinary mortality amongst cattle is reported from one pargana in Jaisalmer. Cattle disease is prevalent in one district of Banawara. Fodder is sufficient. Prices have risen by 8 chataks each in Bikaner, Kishangarh and Dholpur, by  $2\frac{1}{2}$  seers in Tonk, by 2 seers in Bundi, by 6 chataks in Alwar, by 7 chataks in Karauli and by 24 chataks in Ajmer. They were steady or varied slightly elsewhere.

**Central India.**—Rainfall *nil*. The weather is abnormally hot. Reaping of spring crops is completed and threshing and winnowing are in progress. Lands are under preparation for autumn crops. Cattle disease prevails in parts of Gwalior, Baghelkhand, Bundelkhand and Bhopawar. Prices are low in Bhopal, continue high in Baghelkhand, are fluctuating in Indore and Bhopawar and steady elsewhere.

**Central Provinces (including Feudatory States).**—The weather is very hot and cloudy with high winds. Light showers not exceeding 54 cents were received in Hoshangabad, Bhandara, Chanda, Wardha, Drug, Raipur, Amraoti and Raj-Nandgaon. The usual preparation and manuring for sowing of autumn crops are in rapid progress everywhere. Fodder and water are sufficient. Agricultural stock is in good condition. Prices show unimportant variations.

**Bombay.**—Slight rain fell during the week in parts of Ahmedabad, Kanara, Nasik, Poona, Satara, the Karnatak, Kathiawar and Kolhapur. Standing crops are in good condition. Threshing of spring crops continues in parts of Sind, East Khandesh, Nasik and Mahi Kantha. Preparation of lands for the next season is progressing. The fodder supply is adequate. Agricultural stock is deficient in parts of the Deccan but is generally in good condition. Water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in Satara, have fallen in West Khandesh, Bijapur and Belgaum and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 3 to 27 per cent, in Gujarat 2 to 30 per cent, in the Konkan 13 to 25 per cent, in the Deccan 15 to 24 per cent and in the Karnatak 23 to 33 per cent less than the normal.

**Hyderabad.**—Fair and general rain fell in the Raichur district and slight and scattered showers in the Gulbarga, Nizamabad, Mahbubnagar, Nalgonda, Warangal and Adilabad districts. The heaviest falls were 1 inch 95 cents in Raichur and 1 inch 13 cents in Nalgonda. The average rainfall for the Dominions was 10 cents. Lands are being prepared for autumn crops in many parts, the recent rains facilitating their preparation. Water scarcity prevails in Ahadpur and Mulug. Fodder scarcity is reported in 4 talukas and cattle disease in 5. Prices:—Wheat 8, coarse rice 7 and *juar* 14 seers per rupee, showing a rise of  $\frac{1}{2}$  seer in the price of wheat. White *juar* is selling in Hyderabad City at 12 and yellow *juar* at 13 seers. The highest price in districts is 9 seers in Warangal and the lowest 24 seers in Mahbubnagar.

**Mysore.**—The rainfall was good in Bangalore, Tumkur, Mysore and Hassan and fair elsewhere. Prices of food grains are steady. Markets are well supplied. Prospects of the season are good. Cattle are healthy. Water and fodder are available.

**Coorg.**—Rainfall 84 cents. Ploughing for rice continues. Prices of food grains are normal. The public health is fair. Water and fodder for cattle are sufficient.

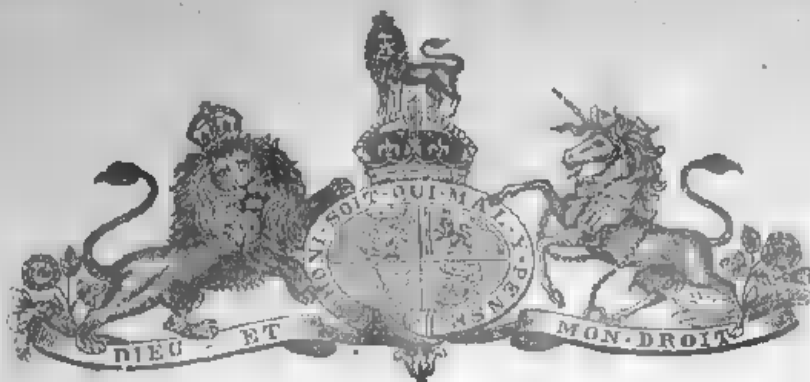

*Printed and Published for the GOVERNMENT OF INDIA, at the GOVERNMENT CENTRAL PRINTING OFFICE, Simla.*

**Madras.**—The rainfall was good in Malabar and Salem, *nil* in Nellore, Chingleput, Madras, Tanjore and Tinnevely and light to fair elsewhere. Irrigation supplies are sufficient in Vizagapatam, Guntur and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, manuring, weeding and transplanting are in progress in parts. Standing crops are fair to good but paddy in parts of Ramnad requires rain. Coffee in parts of the Nilgiris has been affected by bug. Harvests continue with outturn fair to normal generally. Pasture is sufficient in Madras, Tanjore and the Nilgiris. Fodder is available. The condition of cattle is generally good. The price of rice is stationary in twelve districts, has fallen in seven and has risen in six. The prices of millets have fluctuated as follows:—*Ragi* is stationary in fourteen districts, has fallen in seven and has risen in two. *Cholam* is stationary in eight districts, has fallen in three and has risen in four. *Cumbu* is stationary in eight districts, has fallen in three and has risen in six. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is satisfactory and employment is available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

*Secretary to the Government of India.*

SUPPLEMENT TO  
**The Gazette of India.**

No. 22.}

CALCUTTA, SATURDAY, JUNE 3, 1911.

**OFFICIAL PAPERS.**

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

N.B.—Provinces named in the first and last columns include their chief port by ports. "Madras ports" includes the ports of Madras, Pondicherry, and the ports of sea imports from Non-British Ports and Foreign countries, Negapatam, Tuticorin, Calicut, Cocanada, Vizagapatam, Cuddalore, Cochin, Tellicherry, Karaikal, Masulipatam, Mangalore, Quilon, Porto Novo, and Badagara. The last eight ports were added from 1st April 1909

(a) Including Native States (b) Excluding Mewar

The provinces dealt with in this memorandum commonly contain 99.7 per cent of the total reported area under wheat in India.

The general seasonal conditions were favourable on the whole, though the quality of the grain was somewhat affected by rust, particularly in the United Provinces and the Panjab.

The total area comes to 29,554,500 acres which is 1,537,000 acres or 5.5 per cent above the revised figure for 1909-10, and 2,467,400 acres or 9 per cent better than the average of the preceding five years. The total outturn is estimated at 9,900,800 tons as compared with 9,590,500 tons (revised figure) for 1909-10, giving an increase of 310,200 tons or 3.2 per cent. It exceeds the average of the preceding five years by 2,032,600 tons or 25.8 per cent, and is the largest on record.

The following is a summary of the provincial reports. The figures in brackets, following the name of each province, indicate what percentage of the total area under wheat in India is ordinarily cultivated in that province. The ratio of irrigated to total wheat acreage in the province is also stated.

**Panjab (33.6%).** Ratio of irrigated to total wheat acreage = 52.7%.—The total area sown in British districts is reported to be 8,206,000 acres (4,259,000 acres irrigated) as compared with 8,142,000 acres (4,050,000 irrigated) last year—an increase of 0.7 per cent. Severe cold and hard frosts were prevalent in the end of December, but the crop was too young at that time to suffer harm. The rain in January practically ensured a fine harvest. But in March there occurred a spell of cloudy weather

with almost daily rain. The wheat in low-lying lands suffered considerably, the heavier crops were everywhere laid, and in many places rust made its appearance. In April there were only scattered showers, and the harvest came to maturity under normal conditions. The total yield in British districts is estimated at 3,219,000 tons as compared with 3,106,000 tons last year—an increase of 3.6 per cent. It is 10 per cent above the quinquennial average, and is the largest yield since the two fine years 1906 and 1907. It is considered probable that in the Central Panjab the completion of winnowing will show the outturn to fall short of expectation both in quantity and quality. But the damage is nowhere very serious and the crop must rank with one of the best that the Panjab has produced. Native States report a total area of 1,096,000 acres which is the same as last year. The total outturn of this area is estimated at 406,000 tons as against 351,000 tons last year—an increase of some 15 per cent.

**United Provinces (22.9%).** Ratio of irrigated to total wheat acreage = 52.1%.—The total area sown amounts to 7,320,000 acres, which is nearly 13 per cent larger than that of the preceding year, and 17 per cent above the quinquennial average. The season was very favourable to the wheat crop till January, and an approximately normal yield was expected from the province as a whole; but the continuance of cloudy weather caused the spread of rust in nearly every part of the province. Strong winds which blew at the time of ripening of the crop caused further damage. Meerut, Agra, and

Benares Divisions escaped serious injury; but in the rest of the province, the grain is thin and pinched. The total yield is estimated at 2,910,000 tons compared with 2,975,000 tons last year. The small decrease of 2 per cent results from a distinctly inferior yield on the larger area.

**Central Provinces and Berar (11.8%).** Ratio of irrigated to total wheat acreage=1.2 per cent in the Central Provinces and 2.3 per cent in Berar.—The total area sown is reported to be 3,533,000 acres (3,182,000 in the Central Provinces and 351,000 in Berar) as compared with 3,064,000 acres (2,744,000 in the Central Provinces and 320,000 in Berar) for last year—an increase of 15 per cent. Little rain fell during December, but twice the usual quantity was received in January. This improved the prospects of the crop sown and facilitated further sowings on lands which were previously rejected for want of moisture. February was rainless. During March the rainfall in the Central Provinces was unusually heavy for the time of the year, but Berar received 75 per cent less than the normal supply. The weather was drier than usual in April, and this facilitated harvesting, threshing, and winnowing operations. On the whole, conditions were good in the important wheat-growing districts. The total yield is estimated at 958,000 tons (880,000 in the Central Provinces and 78,000 in Berar) as against 940,000 tons (873,000 in the Central Provinces and 67,000 in Berar) for last year—an increase of about 1 per cent. Two Native States (Khairagarh and Nandgaon) report a total area of 123,000 acres and an outturn of 33,000 tons compared with 112,000 acres and 43,000 tons last year.

**Bombay (6.4%).**—Ratio of irrigated to total wheat acreage=12.4 per cent.—The British districts report a total area of 1,212,000 acres as compared with 1,332,000 acres last year—a decrease of 9 per cent. The Native States (including Baroda) report 474,000 acres as against 488,000 acres last year—a decrease of 3 per cent. There was no rain in December, and the fall in January was light and partial and confined to South Gujarat and North Deccan only. Earlier rains, however, were ample, and the crop thrived well everywhere till the end of January. But in the beginning of February there were severe cold and frost which affected the late-sown crop in Gujarat and North and East Deccan, and occasioned shrivelling of the grain in places. There was some rain in March, but it was too late to be of any use, and the cloudy weather induced rust on the wet crop in places. The total yield, however, is estimated at 465,000 tons (306,000 in British districts and 159,000 in Native States) as compared with 451,000 tons last year—an increase of 3 per cent in spite of a decrease of 7 per cent in area. Besides the above, about 11,200 acres yielding some 3,100 tons are estimated for tracts for which statistics are not usually received.

**Bengal (4.6%).**—The total area sown is reported to be 1,383,000 acres as against 1,428,000 acres last year—a decrease of 3 per cent. In November there was no rain except in Bihar and in parts of Chota Nagpur where the fall was above the average. A dry December followed. In January the rainfall was general and proved beneficial to the crop, especial-

ly in Bihar. In February light showers fell all over the province except in Bihar and Chota Nagpur. Damage by hail was reported from certain places. The yield is estimated at 600,000 tons against 541,000 tons last year—an increase of 11 per cent.

**North-West Frontier Province (3.7%).** Ratio of irrigated to total wheat acreage=24.2 per cent.—The total area sown is reported to be 1,033,000 acres as against 1,008,000 acres last year—an increase of 2.5 per cent. The rainfall in February, though below normal, was beneficial, and was followed by copious and well-distributed rains in March, which greatly improved the condition of the standing crop. Hail storms did, however, considerable damage in a few places. The total yield is estimated at 266,000 tons as compared with 235,000 tons last year—an increase of 13 per cent.

**Sind (2%).** Ratio of irrigated to total wheat acreage=81.5%.—The total area is reported to be 544,000 acres (29,000 being in Native States) as compared with 474,000 acres (25,000 in Native States) for last year—an increase of 15 per cent. Inundation was favourable and rainfall good. The total outturn is estimated at 133,000 tons (11,000 in Native States) as against 132,000 tons last year—an increase of 0.8 per cent.

**Eastern Bengal and Assam (0.5%).**—The area sown is estimated at 74,700 acres as against 72,300 acres last year—an increase of 3 per cent. (owing to the presence of ample moisture in the soil the season commenced very favourably; but very little rain fell in the wheat growing districts afterwards, and the result has been a disappointing harvest. The yield is estimated at 20,100 tons which is 21 per cent less than last year.

**Central India (7.5%).**—The total area sown is reported to be 2,460,000 acres as compared with 2,313,000 acres last year—an increase of 6.4 per cent. The yield is estimated at 582,000 tons against 514,000 tons last year—an increase of 13 per cent.

**Hyderabad (3.8%).** reports 1,104,000 acres compared with 1,097,000 acres last year—an increase of 0.6 per cent. The yield is estimated at 97,200 tons as against 67,900 tons last year—an increase of 43 per cent.

**Rajputana (2.9%).**—The total area sown (excluding that in the Mewar State from which return has not been received) is reported to be 1,112,000 acres as compared with 1,005,000 acres last year—an increase of 10 per cent. The total yield is estimated at 244,000 tons as against 243,000 tons last year—an increase of 0.4 per cent.

**Mysore (0.01%).** reports 2,800 acres and 500 tons compared with 3,200 acres and 400 tons last year.

**Exports.**—The exports of wheat from British India to foreign countries by sea during the last five years have been:—

Secretary to the Government of India.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 1st June 1911, based on the Indian Daily Weather Reports of the period.**

1. Conditions in the Arabian sea were disturbed throughout the week and some moderately heavy falls of rain occurred on the Malabar coast. Weather was slightly disturbed also in the centre of the Bay on the 26th, and at the close of the week winds were feebly cyclonic in the neighbourhood of Saugor Island. Rainfall was fairly general in Burma and until the 29th in northeast India also.

2. Temperature was high in the northwest throughout the week, and in the central parts of the country until the 25th. It was on the whole somewhat low in northeast India.

3. *Burma*.—In Upper Burma rainfall was fairly general, and on several days almost all stations in Lower Burma reported rain.

*Northeast India, including Orissa*.—Until the 29th, rainfall was on the whole fairly general in Eastern Bengal and Assam and at times it extended into Bengal proper, Bihar, Orissa and Chota Nagpur. There was however very little rain in the northern half of the division on the 30th, and on the 31st practically no rain was reported except in Orissa and Chota Nagpur.

*The United Provinces, Central India and the Central Provinces*.—Light falls of rain occurred in the Central Provinces on the 28th, and in Central India and the Central Provinces on the 30th. On the 31st rainfall was fairly general in the Central Provinces and a light fall occurred at Indore.

*Northwest India*.—No rainfall of importance was reported.

*The Peninsula*.—Rainfall was moderately heavy in Malabar on the 27th, and occurred almost generally on the 29th in the extreme south. The usual hot weather thunderstorms were reported on other days.

4. The largest daily amounts of rainfall reported during the week are as follows:—

- May 25th. Lashio 1'56", Bhamo 1'19", Cherrapunji 4'06", Shillong 1'00", Narayanganj 1'03", Mymensingh 1'92", Cochin 1'82" and Cuddapah 1'44".
- " 26th. Mergui 1'18", Diamond Island 1'28", Akyab 1'84", Myitkyina 3'05", Chittagong 5'32", Barisal 1'60", Narayanganj 2'32", Mymensingh 1'68", Calcutta 1'41" and Cochin 1'80".
- " 27th. Tavoy 1'45", Moulmein 2'62", Kyaukpau 2'60", Akyab 1'92", Dibrugarh 2'67", Dhubri 1'10", Shillong 1'80", Cherrapunji 6'37", Chittagong 1'13", Patna 1'55", Calicut 2'44", Cochin 2'28" and Salem 1'30".
- " 28th. Victoria point 2'56", Mergui 1'16", Tavoy 1'04", Moulmein 1'25", Akyab 2'09", Bhamo 1'15", Dhubri 1'89", Silchar 1'05", Cherrapunji 5'44", Barisal 4'06", Jalpaiguri 2'41", Darjiling 1'14" and Jessore 1'52".
- " 29th. Port Blair 1'55", Mergui 3'13", Tavoy 2'20", Rangoon 2'11", Diamond Island 1'39", Kyaukpau 2'29", Akyab 2'25", Myitkyina 1'24", Dibrugarh 1'63", Sibsagar 2'50", Silchar 1'80", Cherrapunji 3'28", Chittagong 1'37", Barisal 2'11", Narayanganj 2'86", Mymensingh 3'09", Bogra 1'69", Dinajpur 1'25", Saugor Island 1'20", Mysore 1'21", Cochin 3'18", Trivancrum 1'10", Cuddapah 2'43" and Kodai-kanal 1'32".
- " 30th. Port Blair 1'89", Slipper Island 1'91", Tavoy 2'10", Diamond Island 1'27", Loughoo 2'43", Barisal 2'04", Narayanganj 2'37", Belgaum 1'22", Mysore 1'52" and Salem 1'30".
- " 31st. Port Blair 2'20", Victoria Point 2'58", Moulmein 1'24", Rangoon 1'11" and Diamond Island 1'24".

5. Rainfall during the week was markedly above normal in the Bay Islands, Eastern Bengal and the Madras Deccan, and below normal in the Konkan. During the period 28th April to 1st June it was in large excess in Eastern Bengal, in slight excess in Mysore and the Madras Deccan, and in most other districts in defect.

J. H. FIELD,

Offg. Director-General of Observatories.

E. D. MACLAGAN,

Secretary to the Government of India.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,  
27th May 1911.

**Burma.**—The rainfall was general and in most districts heavy. Ploughing for winter rice is extending in Lower Burma. In Upper Burma the uplands are being prepared for sesamum and cotton. Cultivation of summer rice is in progress. Reaping of spring rice and harvesting of island crops have been completed in most districts. Standing crops promise well. The price of unhusked rice has risen at Rangoon.

**Eastern Bengal and Assam.**—The rainfall was light to moderate in parts of the Assam Valley, the Rajshahi division and the hill districts and heavy elsewhere. The heaviest fall was 14 inches in South Sylhet. Excessive rain has affected weeding operations and has done slight damage to standing crops. It is likely to cause greater damage if it continues. Harvesting of spring rice is practically over. Sowing of autumn and winter rice and jute and transplanting of sugarcane still continue. Prospects of the silk worm are good. The average price of common rice shows a tendency to rise. Cattle disease prevails in Mymensingh, Cachar, Sylhet, the Naga Hills, Goalpara, Kamrup, Darrang and Sibsagar.

**Bengal.**—The rainfall was general over the Province. The fall was heavy in Nadia, Jessore, Khulna and Darjeeling, moderate in Midnapore, Hooghly, the 24-Parganas, Patna, Shahabad, Saran, Champaran, Monghyr, Cuttack, Puri and Manbhum and generally light elsewhere. The recent rain has been beneficial for ploughing and sowing but more rain is wanted in parts of the 24-Parganas, Darbhanga, Angul and Puri. Sowing of jute still continues and that of paddy is in progress. The standing sugarcane crop and vegetables are doing well. The price of rice has risen in Murshidabad, Darjeeling, Balasore, Puri, Hazaribagh and Manbhum and has fallen in Khulna, Bhagalpur, Cuttack and Palamau. Cattle disease is reported from Burdwan, Midnapore, Nadia, Jessore, Patna, Muzaffarpur, Monghyr, Purnea, the Sonthal Parganas, Sambalpur and all the districts of the Chota Nagpur division except Singhbhum. Fodder is insufficient in parts of Hazaribagh. Scarcity of water is reported from this district and also from Palamau.

**United Provinces.**—Light rain fell in four south-eastern and two Himalayan districts. Extra crops are flourishing and are being harvested. Irrigation of sugarcane and extra crops continues and sowing of cotton, millets and early rice is in progress in places. Fields are being manured and prepared for autumn crops. Sporadic cattle disease is reported in ten districts but the general condition of stock is good. Fodder and supplies are ample. Export of grain and oilseeds from several districts continues. There is no marked change in prices.

**Punjab.**—Rainfall nil. Spring crops are being harvested and threshed and their outturn is good to average. Sowing of autumn crops continues. Standing crops are generally in good condition. Prices are easy. The condition of cattle is generally good. Fodder is sufficient except in Murree. Water is scarce in parts of Mianwali.

**North-West Frontier Province.**—Rainfall nil. The condition of standing crops is average. Sowings of autumn crops continue. Harvesting of spring crops are in progress and the expected outturn is said to be generally average, but in Dera Ismail Khan the outturn of oilseed crops is reported below the average. The fodder and water supply is sufficient throughout the Province. Irrigation has commenced from the Paharpur canal in the Dera Ismail Khan district. Cattle are generally in good condition except in one village of the Marwat tahsil in the Bannu district and in one village of the Mardan tahsil in the Peshawar district. The public health is generally good. Prices of wheat and gram are

stationary while those of maize and *bajra* are falling slightly. Prices:—wheat  $15\frac{1}{4}$  to  $22\frac{1}{8}$ , gram  $18\frac{1}{4}$  to 35, maize  $16\frac{1}{8}$  to  $21\frac{1}{4}$  and *bajra*  $22\frac{1}{4}$  to 30 seers per rupee.

**Jammu.**—Rainfall *nil*. Prices are fluctuating. Wheat sells from 12 to 20 and maize from 16 to 30 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in the Kotli and Udhampur tahsils of the Province. Fodder is sufficient.

**Kashmir.**—No rain fell during the week. Sowing of autumn crops is in progress. Spring crops are in good condition. Fodder is sufficient. There is no disease among cattle. Prices are unchanged.

**Rajputana.**—Slight rain fell in the Kotah district. Land is being prepared for the autumn crop. Cattle disease is subsiding in Banswara. Fodder is sufficient. Prices have risen 12 chataks in Marwar, 8 chataks each in Shahpura and Kishangarh, 9 chataks in Karauli and 10 chataks in Ajmer. They have fallen 11 chataks in Jaipur and are steady elsewhere.

**Central India.**—Rainfall *nil*. The days are hot and the nights cool. Threshing and winnowing are in progress. Lands are under preparation for autumn crops. Cattle disease prevails in parts of Gwalior, Baghelkhand and Bhopawar. Prices are low in Bhopal, continue high in Baghelkhand, are fluctuating in Indore and Bhopawar and are steady elsewhere.

**Central Provinces (including Feudatory States).**—During the week Chanda and Kanker had a sprinkling of rain. Winnowing of spring crops continues in some districts. Sowing of rice began in Raipur. The supply of fodder and water is adequate except in parts of a few districts. Cattle are doing well. Prices are almost stationary.

**Bombay.**—Slight rain fell during the week in parts of Ahmedabad, the Konkan, the Deccan, the Karnatak and Kolhapur. Standing crops have been damaged slightly by rats and insects in Karachi but are generally good elsewhere. Threshing of spring crops continues in parts of Sind, East Khandesh and Mahi Kantha. Preparation of lands for next season is progressing. The fodder supply is adequate. Agricultural stock is deficient in parts of the Deccan and generally in good condition. Water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in Kanara, East Khandesh, Bijapur and Belgaum, have fallen in Surat and Poona and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 3 to 27 per cent, in Gujarat 2 to 30 per cent, in the Konkan 13 to 25 per cent, in the Deccan 11 to 28 per cent and in the Karnatak 25 to 33 per cent less than the normal.

**Hyderabad.**—Slight showers fell during the week in parts of most districts except Bir, Parbhani, Bidar, Nizamabad and Karimnagar. The heaviest falls were 1 inch 35 cents in Warangal and 88 cents in Raichur. The rains have helped the preparation of lands for next season's showings. The average for the Dominions was 10 cents. Lands are under preparation for autumn crops. Water scarcity prevails in parts of Raichur, Bidar and Warangal. Cattle disease is reported in six and fodder scarcity in three talukas. Prices:—wheat 8, coarse rice 7 and *juar* 14 seers per rupee. White *juar* is selling in Hyderabad City at 12 seers but yellow *juar* is not available. The highest price in districts is 9 seers in Warangal and the lowest 24 seers in Mabbubnagar.

**Mysore.**—The rainfall was good in Bangalore and Kolar and fair elsewhere. Prices of food grains are generally steady. Markets are well supplied. Prospects of the season are good. Cattle are healthy. Water and fodder are available.

**Coorg.**—Rainfall 9 cents. Prices of food grains are normal. The public health is fair. Water and fodder for cattle are sufficient.

**Madras.**—The rainfall was good in Malabar, South Canara, Chittoor, Salem, the Vizagapatam Agency, Godavari, Madura and the Nilgiris, *nil* in Madras and light to fair elsewhere. Irrigation supplies are sufficient in Guntur and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, manuring, weeding and transplanting are in

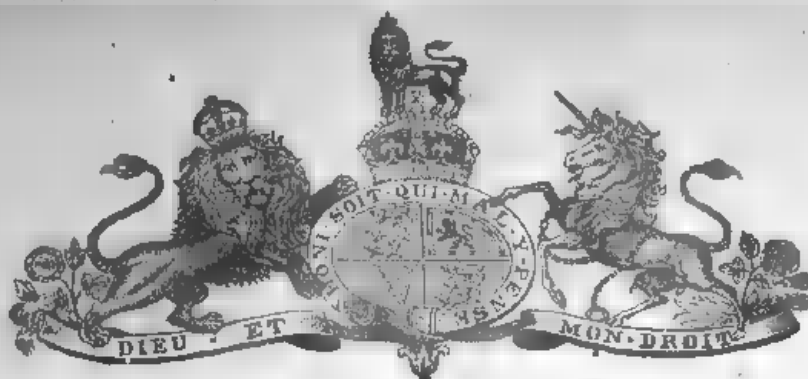

*Printed and Published for the GOVERNMENT OF INDIA, at the GOVERNMENT CENTRAL PRINTING OFFICE, SLADE.*

progress in parts. Standing crops are fair to good but some in parts of Ramnad and Chingleput require rain or water and coffee in parts of the Nilgiris is affected by bug. Harvests continue with outturn fair to normal generally. Pasture is sufficient in Vizagapatam, Madras, Tanjore and the Nilgiris. Fodder is available. The condition of cattle is generally good. The price of rice is stationary in eleven districts, has fallen in four and has risen in ten. The prices of millets have fluctuated as follows:—*Ragi* is stationary in fifteen districts, has fallen in three and has risen in five. *Cholam* is stationary in eight districts, has fallen in two and has risen in five. *Cumbu* is stationary in nine districts, has fallen in three and has risen in five. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is satisfactory and employment is available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

*Secretary to the Government of India.*

SUPPLEMENT TO

# The Gazette of India

No. 23.]

CALCUTTA, SATURDAY, JUNE 10, 1911.

## OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

(n) Figures for the week ending 2nd June 1911.

L. PORTER,  
Secretary to the Government of India.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 8th June 1911, based on the Indian Daily Weather Reports of the period.**

1. A preliminary advance of monsoon winds over the centre and west of the Arabian Sea was in progress during the early part of the week, but it did not extend into the Indian land area. At the close of the week the circulation round an area of low pressure situated over the Arabian Sea was giving winds of the monsoon type, accompanied by somewhat heavy rain, along the west coast of the Peninsula. Weather was unsettled in the north-west of the Bay towards the end of the week and a tendency to the formation of a depression in this area caused rainfall to withdraw from the greater part of northeast India.

2. Temperature was throughout high in the northwest and extreme north, and for the most part low over the central parts of the country and the northeast and east of the Peninsula. In northeast India it was somewhat above normal in the first part of the week and somewhat below in the latter part. An area of marked low temperature was situated over the north and east Punjab and the west United Provinces on the 3rd, but this had disappeared by the 4th. Weather was cool in Upper Burma in the early part of the week and about normal later.

3. *Burma*.—Rainfall was nearly general on the 5th and fairly general on other days.

*Northeast India, including Orissa*.—A few falls were reported each day during the early part of the week. Rainfall became nearly general in Eastern Bengal and Assam on the 4th, and over the whole division on the 5th. Subsequently it diminished and on the 7th had withdrawn almost completely from Assam.

*The United Provinces, Central India and the Central Provinces*.—Light falls were reported each day, and on the 5th rainfall was fairly general in the Central Provinces.

*Northwest India*.—Some rain fell in Rajputana and the extreme north on the 2nd and 3rd, and again in Rajputana on the 4th and 5th.

*The Peninsula*.—Scattered falls occurred until the 3rd when rainfall became fairly general. From the 4th it was general in Malabar, and on the 6th and 7th heavy falls were reported; elsewhere scattered falls again occurred.

4. The largest daily amounts of rainfall reported during the week were as follows:—

- June 1st. Mandalay 3.28", Maymyo 2.24", Dehra Dun 1.49", Chakrata 1.47" and Mysore 1.20".
- " 2nd. Silchar 1.07", Seoni 1.12", Poona 1.65" and Raichur 2.16".
- " 3rd. Kyaukpyu 3.24", Akyab 1.83", Maymyo 2.56", Jalpaiguri 1.42", Roorkee 1.56", Chanda 1.40", Pachmarhi 1.87", Ambala 1.30", Malegaon 1.09", Ahmednagar 1.28", Aurangabad 2.06", Nizamabad 1.12", Calicut 1.23" and Trivandrum 1.07".
- " 4th. Tavoy 3.45", Moulmein 1.01", Akyab 4.72", Dhubri 1.05", Silchar 1.91", Shillong 1.15", Cherrapunji 1.12", Narayanganj 1.07", Jalpaiguri 3.75", Mangalore 1.38", Calicut 1.61", Cochin 1.20" and Madura 3.07".
- " 5th. Mergui 1.12", Tavoy 2.72", Moulmein 1.34", Rangoon 1.23", Kyaukpyu 2.18", Akyab 3.60", Mandalay 1.50", Tezpur 2.09", Dhubri 2.00", Shillong 1.50", Cherrapunji 1.91", Chittagong 2.16", Narayanganj 1.72", Mymensingh 1.42", Dinajpur 1.50", Jalpaiguri 2.17", Saugor Island 1.30", Darbhanga 2.05", Cochin 2.75", Trivandrum 1.68" and Kodaikanal 1.07".
- " 6th. Port Blair 1.29", Victoria Point 2.14", Mergui 3.28", Tavoy 3.32", Moulmein 1.57", Myitkyina 1.06", Gauhati 1.34", Silchar 1.16", Dinajpur 1.42", Saugor Island 1.13", Sambalpur 1.43", Jagdalpur 1.20", Cochin 3.49", Calicut 8.55", Mangalore 2.75", Mercara 1.22", Cocanada 2.28", Vizagapatam 1.42" and Nizamabad 1.13".
- " 7th. Port Blair 5.35", Victoria Point 2.67", Mergui 3.78", Tavoy 1.03", Diamond Island 1.04", Kyaukpyu 2.30", Calcutta 1.36", Berhampore 1.45", Ratnagiri 3.23", Mormugao 2.80", Karwar 1.41", Mangalore 8.31", Calicut 2.70", Cochin 2.74" and Mercara 3.15".

5. Rainfall during the week was in large excess in the Bay Islands, Lower Burma, Hyderabad North and Malabar, and in large defect in the Konkan. During the period 28th April to 8th June it was in large excess in Eastern Bengal and in marked defect in the Konkan.

E. D. MACLAGAN,

Secretary to the Government of India.

No. 593-509-I.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

CIVIL WORKS.  
Irrigation.

Simla, the 29th May 1911.

**Review of Irrigation in India in 1909-10.**

Irrigation works in India are divided into two main classes, *viz.*, major and minor works. Major works are sub-divided into :—

- (a) Productive public works, the capital of which is usually provided from borrowed money.
- (b) Protective works, designed as a protection against famine, the capital of which is provided from current revenues.

Capital and revenue accounts are kept for all major works.

Minor works are constructed from funds provided also out of the current revenues of India and are sub-divided into :—

- (a) Works for which capital and revenue accounts are kept.
- (b) Works for which only revenue accounts are kept.
- (c) Works for which neither capital nor revenue accounts are kept.

**A.—MAJOR WORKS.****I.—Productive Public Works.**

2. Productive public works are expected to yield sufficient revenue to pay their working expenses and the interest on the outlay expended on their construction. No project is now sanctioned as a productive public work unless it can be shown beyond reasonable doubt that on full development it will fulfil these conditions. But the same standard did not obtain in former years, and thus it has happened that several large irrigation works which were financed from borrowed capital, are not remunerative. There are 13 such works, *viz.*, four in Bengal, seven in the Deccan and Gujarat, and two in Madras. They are still retained on the list of productive works, but expenditure against their capital account is now charged against the current revenues of India. The total loss on these 13 works has exceeded 10½ crores. But though they have proved financial failures in the ordinary commercial sense, they have been indirectly of great value in securing large areas of cultivation against the vicissitudes of the seasons.

3. The remaining works in operation, 40 in number, satisfy productive conditions. These works paid collectively 10·36 per cent on their capital outlay during the year; while the surplus revenue, after paying interest charges, which they had contributed to the general revenues of the country up to the end of 1909-10, amounted to 36 crores of rupees against 30½ crores, the capital invested on them. The financial results, the area irrigated, and the mileage in operation for all productive public works *in operation* are shown separately by provinces in Statements I and II.

4. The total area irrigated by all the productive public works, including branches in Native States of the Punjab, amounted to 14,284,000 acres. Towards this total the Punjab canals contributed more than 6 million acres, a larger area than attained in any other province. The return on capital is also highest in the Punjab where the canals yielded 12·78 per cent. There

was a marked falling off in the areas irrigated on the Western Jumna, Upper Bari Doab, and Sirhind Canals. The decrease was due to good and timely rainfall in the tracts served by these systems, resulting in a diminished demand for canal water; but the deficiency was more than counterbalanced by increases in the Lower Chenab, Lower Jhelum and Sidhnai systems. The Lower Chenab canal irrigated 2,212,699 acres and earned a gross revenue of Rs. 1,01,84,434. These figures are respectively 11 and 20 per cent in excess of the previous record for this canal; and this is the first time in the history of irrigation in India in which a single canal has irrigated in one year more than two million acres, and earned a gross revenue of more than a crore of rupees. Taking the productive works in the Punjab as a whole there was an improvement on the results recorded in the review for 1908-09. During the past two years the working expenses of the Indus inundation canals have exceeded the gross revenue, with the result that the profit earned by the system is now represented by a minus quantity. The heavy maintenance charges which it has been necessary to incur on these canals are due to serious damage caused by floods, and are not necessarily of a recurring nature.

5. In the United Provinces, the timely and well distributed rainfall in both seasons reduced the demand for canal irrigation; the area irrigated and the revenue assessed were consequently less than in the previous year. Rich harvests were reaped, which greatly benefited the cultivating community after the years of drought and scarcity recently experienced. The supplies in the canals were generally equal to the demand.

6. In Madras the figures relating to the acreage under irrigation do not differ materially from those of the previous year. There is however a decrease of about two lakhs in the net revenue during the year as compared with the last. In this Presidency the financial results of the productive works taken as a whole are seriously affected by the poor results of the Kurnool-Cuddapah canal, the capital cost of which exceeds 2½ crores of rupees while the area irrigated during the year was 70,130 as compared with 64,586 acres in the previous year. The net revenue realised amounted to Rs. 47,424 only, representing but 0.21 per cent on the capital outlay.

7. In Sind the rainfall is negligible and cultivators are therefore obliged to depend entirely upon canal irrigation. The canals, being of the inundation class, are in turn dependent upon the height and duration of the floods in the Indus during the irrigating season. The year under review was a prosperous one for the cultivators, although the area of irrigation was somewhat less than that attained in the previous year. Rice is a favourite crop when water is plentiful and the year being one of good inundation, the area of rice crop exceeded the combined area of the standard food grains, *viz.*, *Juari* and *Bajri*. The net revenue realised exceeded that of the previous year by nearly a lakh of rupees.

8. In Bombay (Deccan and Gujarat) rice irrigation is largely carried out by the people without the aid of Government works, and the canal works are limited in scope in comparison with those of other provinces. The area irrigated in the period covered by this review amounted to 51,672 acres as compared with 37,314 acres in the previous year. As stated in paragraph 2 above, the works are not remunerative.

9. In Bengal, the Hoogle Tidal Canal is used purely for navigation purposes; the three other canals, *viz.*, the Orissa, the Midnapore and the Sone, are also so utilised, but they are primarily intended for irrigation. The gross revenue slightly exceeded that of the previous year, although there was a slight defect in the acreage under irrigation. The decrease occurred chiefly on the Sone canals, owing to a smaller area irrigated in the rabi season. The increase in gross revenue was nearly equally divided between navigation and irrigation, the higher irrigation receipts being due to the large area of rabi irrigated from the Sone canals in the preceding year. Although these works do not fulfil productive conditions, there is no doubt about their indirect value, considering that the estimated value of crops raised on the area irrigated by them in the year under review amounted to nearly four crores of rupees, a sum which is about two-thirds of their total capital cost.

10. Both in Burma and in the North-West Frontier Province the irrigated area exceeded 200,000 acres.

11. The importance of productive public works may be gauged roughly by the value of the crops which are produced by their agency. In the year under review the estimated value of the crops irrigated by productive public works amounted to about 51½ crores of rupees, exceeding the capital cost incurred on them by more than 9 crores. With the completion of the important works now under construction, viz., the Upper Jhelum, Upper Chenab and Lower Bari Doab canals in the Punjab, the Upper Swat River canal in the North-West Frontier Province, the Nagavalli River project in Madras, the Môn and Ye-u Canals in Burma and the Asola Mendha tank in the Central Provinces, considerable additional areas will be brought under cultivation.

## II.—Protective Works.

12. There were in operation in the year under review 20 protective works which together irrigated a total of 303,037 acres. The majority are small tank works situated in the Central Provinces, where irrigation is still in an early stage of development. The works in the Central Provinces were sanctioned as experimental works, in accordance with the recommendations of the Irrigation Commission, to test how far the people were willing to resort to irrigation for the maturing of their crops and what water rates they were prepared to pay. The results obtained are very gratifying and show that the people are beginning to realise the great advantages of irrigation. In the year 1908-09 the rainfall there was above the average while in the year under review it was deficient. The area irrigated in the Central Provinces during 1909-10 was 24,717 acres against 25,413 acres in the previous year. The average water rate paid during the year on these works was Rs. 1.56 per acre. Particulars of all protective works are given in Statements IV, V and VI.

## B.—MINOR WORKS.

### III.—Works for which capital and revenue accounts are kept.

13. There were ninety-four works so classed in 1909-10, the majority of which are in Bombay and Madras. Seven are purely navigation works.

The net revenue paid by works of this category during the year under review amounted to Rs. 29,21,337 (excluding navigation canals) or a return of 7.99 per cent on the capital outlay, against 7.95 per cent in the previous year. Nearly all the minor works in Sind return exceptionally high percentages; but as some large projects, with which it is intended to amalgamate them are under consideration, their transfer to major works has been postponed for the present.

Excluding the area shown under Burma, viz., 452,658 acres, which is not under irrigation, but represents the area of cultivation on lands reclaimed by river flood embankments, the area irrigated by minor irrigation works during 1909-10 was 1,427,133 acres against 1,511,093 acres in the previous year.

Statements VII and VIII give particulars of individual works.

### IV.—Works for which only revenue accounts are kept.

14. There are numerous minor works for which separate capital accounts are not kept, either because they are not sufficiently important, or because, having been constructed by the former rulers of the country, their capital cost is not known. For such works only revenue accounts are kept; they are credited with a share of the land revenue depending on their maintenance, and are debited with all expenditure incurred on construction, extension, improvements and maintenance. Particulars for the year 1909-10 are shown in Statement X.

*V.—Works for which neither capital nor revenue accounts are kept.*

15. There is a third important class of minor works, chiefly existing in the Madras Presidency, for which neither capital nor revenue accounts are kept. The Madras works include over 28,000 tanks and 6,000 irrigation channels, the improvements and repairs of which are executed by the Public Works Department, or, in the case of the smaller works, by civil officers. The areas irrigated by these small works in 1909-10 aggregated 3,385,233 acres, (or about the same area irrigated by all the major works in the Presidency taken together), compared with 8,327,833 acres in 1908-09.

16. The following table summarises the results of irrigation works for all India during 1909-10 in comparison with those of the two previous years :—

*Financial and irrigational results of irrigation works in operation in India.*

Class of work.	Capital outlay to end of the year on works in operation.	Gross revenue during the year.	Net revenue during the year.	Percentage of net revenue on capital outlay to end of year.	Area irrigated.
	Rs.	Rs.	Rs.	Per cent	Acres.
I.— and } I.—Productive } II.—Major } II.—Protective }	45,43,83,348	5,87,32,067	3,49,63,492	7.70	14,590,327
III.—Minor works for which capital and revenue accounts are kept (including works under construction).	6,10,36,188	47,69,661	30,11,249	4.93	1,879,791
IV.—Minor works for which only revenue accounts are kept.	.....	62,84,601	31,97,284	...	2,500,485
V.—Works for which neither capital nor revenue accounts are kept.	.....	98,86,278	43,71,121	...	3,445,145
Total 1909-10 ...	51,54,19,486	7,45,74,627	4,55,48,146	(a) 7.87	22,415,748
Total 1908-09 ...	50,84,80,162	7,21,42,644	4,38,14,529	(a) 7.40	22,763,377
Total 1907-08 ...	50,24,77,911	6,94,59,957	4,20,55,143	(a) 7.24	21,948,481

(a) Percentages calculated on works of classes I, II and III.

The total area irrigated was about 22½ million acres, while the value of the crops raised by the works for which capital accounts are kept is estimated at nearly Rs. 60 crores, or about 116 per cent of the capital outlay expended on them.

**ORDER.**—Ordered that this Review be forwarded to the Finance and Revenue and Agricultural Departments and to the local Governments and Administrations in the Public Works Department, noted on the margin, for information.

The Governments of Madras, Bombay, Bengal, the United Provinces of Agra and Oudh, the Punjab, Burma and Eastern Bengal and Assam.  
The Honourable the Chief Commissioner of the Central Provinces.  
The Chief Commissioner of Coorg.  
The Honourable the Resident at Hyderabad.  
The Honourable the Agents to the Governor-General for Central India and Rajputana.  
The Honourable the Agent to the Governor-General and Chief Commissioner, Baluchistan.  
The Honourable the Chief Commissioner and Agent to the Governor-General, North-West Frontier Province.  
The Comptroller and Auditor-General.

Ordered, also, that the Review be published in the Supplement to the Gazette of India.

Ordered, further, that a copy of the Review be forwarded to His Majesty's Secretary of State for India for information.

W. B. GORDON,  
Secretary to the Government of India.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,  
3rd June 1911.

**Burma.**—The rainfall was light in the dry zone and moderate or heavy elsewhere. Ploughing for the winter rice crop has become general in Lower Burma. In Upper Burma cultivation of sesamum, cotton and summer rice is proceeding as usual. The condition of standing crops is good. The price of unhusked rice remains much about the normal in Lower Burma.

**Eastern Bengal and Assam.**—The rainfall was general being light to moderate in parts of the Assam Valley and Rajshahi divisions and fairly heavy elsewhere. Heavy rain has affected the growth of crops in some places in Mymensingh and Rangpur. Prospects of standing crops are otherwise good. Harvesting of early autumn rice has commenced in Faridpur. Sowing of winter rice continues. The average price of common rice shows a tendency to rise. Cattle disease prevails in Mymensingh, Cachar, Sylhet, the Naga Hills, Kamrup, Darrang and Sibsagar.

**Bengal.**—The rainfall was general over the Province. The fall was heavy in parts of Midnapore, Nadia, Jessore, Purnea, Darjeeling, Puri and Cooch Bihar, moderate in Hooghly, the 24-Parganas, Patna, Darbhanga, Cuttack, Balasore and Sambalpur and generally light elsewhere. The recent rain has been beneficial for ploughing and sowing but more rain is wanted in parts of Howrah, Darbhanga, Bhagalpur, Purnea, the Sonthal Parganas and Puri. Sowing of jute still continues and that of paddy is in progress. Standing crops are doing well. The price of common rice has risen in Murshidabad, Khulna, Hazaribagh and Ranchi and has fallen in the 24-Parganas, Gava, Saran, Purnea and Puri. Cattle disease prevails in Midnapore, Nadia, Jessore, Patna, Muzaffarpur, Purnea, Sambalpur, Ranchi and Manbhum. Fodder is insufficient in parts of Monghyr and Hazaribagh. Scarcity of water is reported from these two districts and also from Palamau.

**United Provinces.**—Rain fell in the Himalayan districts and light rain in most of the submontane districts. Extra crops and sugarcane are being irrigated. Fields are being prepared for autumn crops and sowing of cotton, maize and rice is proceeding in places with the aid of irrigation. Ten districts report sporadic cattle disease but the general condition of stock is good. Fodder and supplies are ample. Export of grain and oilseeds from several districts continues. Prices remain generally stationary.

**Punjab.**—Moderate to light rain fell in parts of Hissar, Rohtak, Ambala and Rawalpindi. Spring crops are being harvested and threshed and their outturn is good to average. Sowings of autumn crops continue. Standing extra spring crops are generally in good condition. Prices are easy but show a slight upward tendency. The condition of cattle is generally good. Fodder is sufficient. Water is scarce in parts of Rohtak and Mianwali.

**North-West Frontier Province.**—No rain fell during the week. The condition of standing crops is average. Sowings of autumn crops continue. Sowing of cotton is finished in the Bannu district. Harvesting of spring crops is in progress and the expected outturn is said to be generally average, but the outturn of oilseed crops in the Dera Ismail Khan district is reported below the average. The fodder and water supply is sufficient throughout the Province. Irrigation from the Paharpur canal in the Dera Ismail Khan district continues. The condition of cattle is generally good except in two villages of the Bannu district and in certain villages of the Tank tahsil in the Dera Ismail Khan district. The public health is generally good. Prices of food grains except those of maize show a slight tendency to rise. Prices:—Wheat 15½ to 21½, gram 18½ to 34, maize 16½ to 31½ and bajra 22½ to 28½ seers per rupee.

**Jammu.**—No rain fell during the week. Prices are fluctuating. Wheat sells from 12 to 20 and maize from 16 to 30 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in the Basohli tahsil of the Province. Fodder is sufficient.

**Kashmir.**—The weather was bright and warm. It rained slightly once during the week. There is no disease among cattle. Fodder is sufficient. Prices are unchanged.

**Rajputana.**—The rainfall during the week in cents was:—Sirohi 64, Shahpura 64, Bundi 29, Kotah 48, Jhalawar 24 and Merwara 26. The falls varied from 14 to 94 cents in nine Nizamats of Kotah. There was slight rain in Marwar, Mewar, Jaipur and Ajmer. Land is being prepared for autumn crops. Cattle disease is subsiding in Banawara. Fodder is sufficient. Prices have risen by 1 seer each in Marwar and Merwara, by 2 seers in Tonk

*Printed and Published for the GOVERNMENT OF INDIA, at the GOVERNMENT CENTRAL PRINTING OFFICE, Shoolie.*

and by 1 seer 4 chataks in Jaipur. They have fallen by 2 seers in Partabgarh, by 3 chataks in Bundi and by 1 seer 10 chataks in Karauli and are steady elsewhere. There are slight variations in two States.

**Central India.**—Rainfall *nil* in Gwalior and Bundelkhand and partial elsewhere. The weather is cool. Threshing and winnowing have been completed. Lands are under preparation for autumn crops. Cattle disease prevails in parts of Indore, Baghelkhand, Bundelkhand and Bhopawar. Scarcity of water is reported from certain parganas in Gwalior. Prices are low in Bhopal, continue high in Baghelkhand, are fluctuating in Indore and Bhopawar and are steady elsewhere.

**Central Provinces.**—There were showers of rain in all districts except Bhandara and Akola. Preparation of land for sowing of autumn crops is in full swing. Fodder and water are sufficient except in parts of a few districts. Agricultural stock is in good condition. There are unimportant variations in prices.

**Feudatory States.**—During the week six States had rain not exceeding 83 cents. Fodder and water are adequate except in parts of Nandgaon and Sakti. Prices are almost stationary.

**Bombay.**—Moderate rain fell during the week in parts of Ahmedabad, Kaira, Broach, Nasik, Ahmednagar, Poona, Sholapur, Bijapur, Belgaum and Kolhapur and slight rain in Thar and Parkar, the Panch Mahals, Surat, the Konkan, Khandesh, Satara, Dharwar, Baroda, Palanpur, Mahi Kantha, Rewa Kantha and Savantvadi. Standing crops are generally in good condition. Threshing of spring crops continues in parts of Sukkur, Hyderabad and the Upper Sind Frontier. Preparation of lands for autumn cultivation is progressing. Sowing has commenced in Larkana, Kaira, Broach, the Konkan, Nasik, Poona, Belgaum, Dharwar and Kolhapur. The fodder supply is adequate. Agricultural stock is deficient in parts of the Deccan and generally in good condition. Water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices are generally stationary. The quantity purchasable per rupee is in Sind 3 to 27 per cent, in Gujarat 2 to 30 per cent, in the Konkan 13 to 25 per cent, in the Deccan 11 to 28 per cent and in the Karnatak 25 to 33 per cent less than the normal.

**Hyderabad.**—Scattered and scanty showers fell in most districts except Gulbarga, Raichur and Mahbubnagar where the fall was somewhat general and fair. The heaviest falls recorded were 1 inch 17 cents in Nagar Karnul, 85 cents in Kushtagi and 80 cents each in Kalvakurti and Chinnur. The average for the Dominions was 7 cents. Lands are being prepared for next season's sowing. Water scarcity is experienced in parts of Raichur, Warangal and Bidar. Cattle disease prevails in five and fodder scarcity in three talukas. Prices:—Wheat 8½, coarse rice 6½ and *juar* 14 seers per rupee. White *juar* is selling in Hyderabad City at 12 seers but yellow *juar* is not available. The highest price in the districts is 9 seers in Warangal and the lowest 24 seers in Mahbubnagar.

**Mysore.**—The rainfall was good in Bangalore and Kolar and slight elsewhere. Prices of food grains are generally steady. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

**Coorg.**—Rainfall 19 cents. Ploughing for rice continues. Prices of food grains are normal. The public health is fair. Water and fodder for cattle are sufficient.

**Madras.**—Rainfall *nil* in Madras, good in Salem, Malabar, Coimbatore, Cuddapah, Madura, Trichinopoly, North Arcot, South Canara, the Nilgiris, Tanjore, Godavari, Kistna and Kurnool and light to fair elsewhere. Irrigation supplies are sufficient in Vizagapatam, Guntur, Cuddapah and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, manuring, weeding and transplanting are in progress in parts. Standing crops are fair to good but coffee in parts of one taluka in the Nilgiris is affected by bug. Harvests continue with outturn fair to normal generally. Pasture is sufficient in Madras, Tanjore and the Nilgiris and improving in Trichinopoly. Fodder is available except in parts of Madura. The condition of cattle is generally good. The price of rice is stationary in fifteen districts, has fallen in three and has risen in seven. The prices of millets have fluctuated as follows:—*Ragi* is stationary in sixteen districts, has fallen in two and has risen in five. *Cholam* is stationary in five districts, has fallen in two and has risen in eight. *Cumbu* is stationary in seven districts, has fallen in six and has risen in four. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is satisfactory and employment is available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Memorandum on the meteorological conditions prevailing before the advance of the southwest monsoon of 1911.**

Monsoon rainfall in India is known to be affected by many external conditions. The following statement contains those which are at present believed to be the most important :—

**THE ARGENTINE REPUBLIC.**

1. At Buenos Aires monthly pressure was in excess in March by 0.096" and in defect in April and May by 0.064" and 0.016" respectively.

**THE INDIAN OCEAN.**

2. (a) *Mauritius*.—During May the barometer was unsteady, and pressure was below normal by 0.59". The low pressure conditions appear to have extended well over the South Indian Ocean, as Australia also showed a slight defect. The air movement at Mauritius was nearly normal in character.

(b) *Zanzibar*.—Rainfall during May was in excess by 6.75" or 65 per cent. Winds were slightly more westerly than usual and below their normal strength.

(c) *Seychelles*.—Rainfall in April was in defect by 4.24", or 60 per cent, and in May in excess by 0.44", or 7 per cent. Winds were lighter and slightly more easterly than usual.

(d) *Logs of vessels*.—In the west and centre of the Arabian Sea there prevailed, towards the close of May, a strong monsoon current which had in the ordinary course skirted the east coast of Africa. This resulted in the formation of a cyclonic storm which is believed to have crossed the coast of Arabia and to have broken up inland about the 28th or 29th May.

During the same period there were light unsteady winds between Mauritius and Seychelles, and it is this abnormal feature that accounts for the absence of monsoon winds over the eastern parts of the Arabian Sea, and the consequent delay in the appearance of the monsoon on the west coast. In normal years moderately strong southeasterly trades prevail towards the end of May in the sub-equatorial regions mentioned, and the monsoon strikes the Malabar coast on June 3rd.

In the Bay of Bengal a feeble and temporary advance of monsoon winds occurred in the middle of May.

**NORTHEAST AFRICA.**

3. The rainfall in this area is chiefly due to the more westerly portions of the same currents which supply the monsoon of India.

The rains in the Sudan began early and proved heavy up to the middle of May. From the state of the Blue Nile it is believed that similar conditions held in Abyssinia. At the end of the month the height of the river was about normal.

**SNOWFALL.**

4. (a). According to the incomplete information as yet available the snowfall, especially in December and January, was abnormally heavy in Persia, Transcaspia, western Afghanistan and parts of Turkistan. In some parts of Persia snow is reported to have fallen to unusually low levels.

(b) In Baluchistan the precipitation was well above the average in December, January and March, and normal or in defect in February, April and May. Similar conditions seem to have prevailed in the North-West Frontier Province.

A rapid melting of the accumulations occurred during the second half of May, but the quantity of unmelted residue at the beginning of June was undoubtedly greater than usual.

(c) In *Kashmir* the precipitation of the season was heavy, an excess having occurred in December, January and March. There were occasional falls in April and a few local falls in May, but they were restricted to the higher ranges. At the end of May snow lay nearly 8 feet deep on the higher mountains near Sonemarg, but was melting fast.

(d) In the *Punjab Himalayas* the snowfall was very heavy in January and March and probably also in December: it was light to moderate in February and April, and very light and local in May. In Kulu, Spiti and Lahoul the season was exceptionally severe. In the beginning of June the accumulations in Chamba and Kulu, for which alone information is as yet forthcoming, were unusually great.

(e) In the *Kumaon hills* snowfall was greater than usual in January and March and normal or below normal in December, February and May. In Almora the accumulations at the end of April were much greater than usual.

(f) In the *Assam Himalayas* the snowfall was probably somewhat above the average.

#### INDIA.

5. Weather was cooler than usual in April, the establishment of the hot weather conditions having been greatly delayed by the excessive snowfall of the winter months.

Mean barometric pressure for May was in favourable defect, but the local distribution in northern India was far from satisfactory.

#### SUMMARY OF FACTS; AND INFERENCES.

6. (a) Pressure in South America during April was unfavourable for the monsoon, but improved slightly later. In Mauritius pressure has been variable, a condition foreshadowing unsteadiness in the monsoon; but being below normal, it affords a favourable sign for the total quantity of monsoon rainfall.

(b) Snowfall was heavy in the earlier winter months, and light later; the accumulations at present are above normal, and form an unfavourable feature.

(c) From the evidence of ships' logs, and from the recorded state of the Nile, it appears that the monsoon in the west of the Arabian Sea was up to time and has been strongly developed.

On the other hand the monsoon in the east of the Arabian Sea has been delayed owing to the undeveloped conditions mentioned in paragraph 2 (d).

(d) The unsatisfactory distribution of barometric pressure in northern India during May is adverse to the timely establishment of the Bay current in the western half of its field.

#### FORECAST.

7. (a) The Arabian Sea monsoon, already late in appearance, is likely to be late also in its full establishment. It will probably be less steady than usual and may be expected to shew periods of marked activity and of marked feebleness.

(b) The existence of great accumulations of snow at the present time make it probable that the monsoon in northwest India will be weak during the first half of the rainy season.

(c) The Bay current is likely to appear on the Bengal coast at the normal time, about the middle of this month. The process of its establishment in the western part of its area, the Gangetic plain, is likely to be slow.

(d) The total monsoon rainfall for the period June to September is not likely to differ from the normal by more than about 5 per cent: a defect is more likely than an excess.

\* This is in agreement with the results of the statistical method, due to Dr. Walker, of examining antecedent determining conditions.

SIMLA;

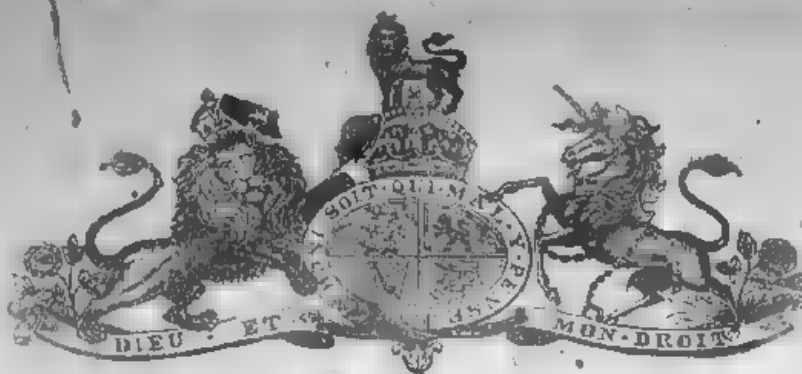

The 8th June 1911.

J. H. FIELD;

Offg. Director-General of Observatories.

E. D. MACLAGAN,

Secretary to the Government of India.

SUPPLEMENT TO  
**The Gazette of India.**

No. 24. } SIMLA, SATURDAY, JUNE 17, 1911.

**OFFICIAL PAPERS**

*A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.*

*Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.*

*No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.*

**GOVERNMENT OF INDIA.**

**DEPARTMENT OF REVENUE AND AGRICULTURE.**

**Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 15th June 1911, based on the Indian Daily Weather Reports of the period.**

1. The disturbance which lay off the west coast at the beginning of the week gradually disappeared while the depression in the Bay intensified. The latter crossed the coast of Orissa on the 10th and moved into the Central Provinces on the 11th, but by the following day its path had recurved and it was moving towards Bengal. At the close of the week the storm had its centre over Narayanganj and was decreasing in importance. As is usual, some heavy rainfall was associated with it.

This storm was comparatively unimportant but may be considered to have introduced into Bengal on 11th the first burst of true monsoon rainfall.

There were signs of a coming weakening in the Arabian Sea branch of the monsoon on the 12th and 13th, and on the 14th it had weakened considerably along the west coast, but had given rain in central and northwest India.

2. At the beginning of the week temperature was above normal in north and northeast India, and below normal in the Peninsula and the central parts of the country. On the 11th low temperature conditions had extended, and only in the northwest was temperature above normal. Weather remained unusually cool over almost the whole country during the rest of the week.

3. *Burma.*—Rainfall was nearly general until the 12th when it diminished somewhat in Upper Burma.

*Northeast India, including Orissa.*—At the beginning of the week rainfall was practically confined to the coast districts but increased later and became nearly general, diminishing again at the close of the week.

*The United Provinces, Central India and the Central Provinces.*—The week began with light local rainfall, but nearly general rain, very heavy in parts, occurred in the Central Provinces and Central India West on the 11th and 12th. It was nearly general in Central India and the west of the Central Provinces on the 14th.

*Northwest India.*—Nearly general rainfall occurred during the course of the week in the hills and submontane districts of the Punjab, in the North-West Frontier Province, Rajputana and Gujarat.

*The Peninsula.*—Rainfall was nearly general, and at many places heavy, on the west coast. Elsewhere light to moderate falls were reported.

4. The largest daily amounts of rainfall reported during the week were as follows:—

- June 8th. Mergui 3'72", Tavoy 5'29", Narayanganj 2'71", Goa 7'25", Mormugao 7'47", Karwar 3'90", Mangalore 3'92", Pachmarhi 2'09" and Mercara 3'71".
- " 9th. Port Blair 2'24", Tavoy 3'05", Trivandrum 2'17" and Mercara 3'12".
- " 10th. Bassein 3'43", Diamond Island 6'94", Kyaukpyn 3'75", Akyab 3'05", Lashio 2'07", Barisal 3'49", Jessore 2'04", Balasore 2'56", Bombay 2'46", Karwar 2'03", Hanumkonda 2'06", Mangalore 3'40", Calicut 3'65", Cochin 2'49", Gopalpur 2'30", and Mercara 6'56".
- " 11th. Rangoon 2'03", Bassein 2'68", Akyab 3'45", Barisal 3'05", Narayanganj 2'35", Jalpaiguri 2'14", Burdwan 2'12", Chaibassa 2'38", Hazaribagh 3'05", Naya Dumka 3'14", Amraoti 2'35", Nagpur 12'40", Raipur 7'42", Chanda 2'00", Ratnagiri 5'20", Shillong 2'41", Cherrapunji 5'96", Mercara 4'49" and Ootacamund 2'68".
- " 12th. Victoria Point 3'24", Rangoon 2'37", Myitkyina 3'34", Dibrugarh 2'54", Sibsagar 3'98", Tezpur 2'59", Gauhati 3'72", Dhubri 3'56", Bogra 3'35", Jalpaiguri 2'45", Gaya 2'17", Naya Dumka 2'07", Seoni 9'56", Bombay 2'58", Ratnagiri 3'38", Calicut 2'29", Shillong 2'41", Cherrapunji 9'89" and Mercara 2'38".
- " 13th. Moulmein 4'55", Myitkyina 8'06", Silchar 3'15", Narayanganj 3'39", Mymensingh 3'12", Bogra 2'41", Sambalpur 2'25", Hazaribagh 2'29", Naya Dumka 3'25", Surat 3'28", Goa 2'70", Mormugao 3'09", Karwar 3'12", Shillong 3'45" and Cherrapunji 5'38".
- " 14th. Port Blair 3'47", Myitkyina 5'45", Mymensingh 2'45", Berhampur 5'97", Roorkee 2'72", Delhi 3'35", Ambala 2'35", Ludhiana 2'75", Khushab 3'00", Neemuch 4'65", Shillong 4'52", Cherrapunji 12'44" and Mount Abu 2'11".

5. Rainfall during the week was in large excess in the Bay Islands, Lower Burma, Bengal, Eastern Bengal, Orissa, Chota Nagpur, Behar, the Punjab, Rajputana East, Gujarat, Central India West, Berar, the Central Provinces and the Konkan. During the period 28th April to 15th June it was in large excess in Eastern Bengal, the Punjab, Rajputana East, Gujarat, Central India West, Berar and the Central Provinces, and in less marked excess in Malabar.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,  
10th June 1911.

**Burma.**—The rainfall was heavy on the Tenasserim coast, light in the dry zone and moderate elsewhere. Ploughing for winter rice in Lower Burma is proceeding as usual. In Upper Burma ploughing for autumn rice, sowing of sesamum and cotton and reaping of summer rice have begun. The price of unhusked rice remains high in Lower Burma.

**Eastern Bengal and Assam.**—The rainfall was moderate in the Assam Valley districts. In the remainder of the Province the fall was heavy in places and moderate elsewhere. Excessive rain has caused some damage to standing crops in parts of Dacca, Mymensingh and Tippera. Tea is doing well. The condition of the silk worm is good. Land is being prepared for transplantation of winter rice. Harvesting of early autumn rice is going on. The average price of common rice shows a tendency to rise. Cattle disease prevails in Mymensingh, Backarganj, Cachar, the Naga Hills, Goalpara, Kamrup, Darrang, Nowgong and Sibsagar.

**Bengal.**—The rainfall was general all over the Province. The fall was very heavy in Cooch Behar, Cuttack, Balasore, Angul, Puri, Birbhum, Midnapore, Hooghly, the 24-Parganas, Nadia and Murshidabad and generally moderate in the rest of the Province. Preparation of lands for sowing of paddy and weeding of jute continue. Prospects of standing crops are good. The price of common rice has risen in Bankura, Murshidabad, Jessore, Purnea, the Sonthal Parganas, Ranchi and Manbhum and has been stationary in the remaining districts. Cattle disease is reported from Midnapore, Howrah, Nadia, Darbhanga, the Sonthal Parganas, Sambalpur, Hazaribagh, Ranchi and Palamau. The fodder and water-supply is sufficient throughout the Province.

**United Provinces.**—Rain averaging about 1 inch fell in the Himalayan and eastern submontane districts and light showers in other submontane districts and Bundelkhand. The condition of standing crops is satisfactory and prospects are good. Sowing of autumn crops continues in irrigated tracts. Elsewhere fields are being prepared for sowing. The general condition of agricultural stock is good, sporadic disease being reported from only ten districts. Fodder and supplies are ample. Export of grain and oilseeds continues. Prices have fallen in seven and risen in five districts. Elsewhere they are generally stationary.

**Punjab.**—Moderate to light rain has fallen in all districts except Delhi, Ferozepore, Shahpur, Mianwali, Lyallpur and Multan. Rain is badly wanted in Mianwali. Spring crops are still being harvested and threshed in some districts and their outturn is good to average. The condition of standing crops is good to average. Sowings of autumn crops continue. Grass-hoppers are injuring the early cotton crop in Shahpur. Granaries have been seriously damaged by river flood in the riverain tracts of the Bhakkar tahsil in the Mianwali district. Prices are easy. Cattle are generally in good condition. Fodder is sufficient except in parts of Rohtak where in certain parts water is also scarce.

**North-West Frontier Province.**—No rain fell during the week. The condition of standing crops is average. Harvesting of spring crops is in progress and the outturn is said to be average except that of oilseeds in Dera Ismail Khan which is somewhat below normal. The fodder and water-supply is sufficient. Irrigation from the Paharpur canal in Dera Ismail Khan continues. The condition of cattle is fair except in several villages of the Tank tahsil of the Dera Ismail Khan district and in two villages of the Marwat tahsil of the Bannu district. The public health is good. Prices of food grains are :—wheat 14½ to 22½, gram 18 to 34, maize 16½ to 30½ and bajra 22½ to 28½ seers per rupee.

**Jammu.**—No rain fell during the week. Prices are fluctuating. Wheat sells from 11 to 20 and maize from 16 to 30 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in the Basohli tahsil of the Province. Fodder is sufficient.

**Kashmir.**—The weather was bright and warm. Crops on *karewa* lands are withering for want of rain. There is no disease among cattle. Fodder is sufficient. Prices are unchanged.

**Rajputana.**—The rainfall in cents was:—Jaisalmer 29, Sirohi 104, Banswara 56, Partabgarh 37, Shahpura 41, Kotah 58, Jaipur 48, Ajmer 205, and Merwara 112. There was slight rain in the hilly tracts, Mewar, Bharatpur and Dholpur. Land is being prepared for autumn sowings. Cattle disease is subsiding in Banswara. Fodder is sufficient. Prices have risen by 5 chataks each in Bundi and Alwar and 8 chataks in Kishangarh, have fallen 1 seer 12 chataks in Marwar, 2 seers in Tonk, 6 chataks in Karauli, 8 chataks in Bharatpur and slightly in Jaisalmer and Dholpur. Prices are steady elsewhere.

**Central India.**—Rainfall *nil* in Bundelkhand and partial elsewhere. The fall was insufficient in Gwalior, Bhopal and Malwa. Haystacks were received in the Rampura district of Indore. The weather was cool. Land is under preparation for autumn crops. Cattle disease prevails in parts of Gwalior, Baghelkhand, Bundelkhand and Bhopawar. Scarcity of water is reported from one pargana in Gwalior. Prices are low in Bhopal, continue high in Baghelkhand, are fluctuating in Bhopawar and are steady elsewhere.

**Central Provinces.**—During the week the Vindhyan districts, Jubbulpore, Nimar and Betul had light showers. Elsewhere moderate to heavy rain was received. The heaviest falls in inches were:—Nagpur 15, Seoni and Raipur each 11, Bhandara 8, Drug 7, Wardha 6 and Amraoti 5. In the remaining districts the quantity registered at head-quarters did not exceed 4 inches. The rain greatly facilitated ploughing of land all over the Provinces. Sowing of autumn crops has already been started in places in Saugor, Jubbulpore, Narsinghpur, Nimar, Betul and the rice districts. The supply of fodder and water is adequate except in parts of Damoh, Nimar and Nagpur. Cattle are healthy. Prices are steady.

**Feudatory States.**—During the week the rainfall measured in inches was:—Nandgaon 7, Kankar 6, Raigarh 5, Chhuikhadan 8, Korea 2 and Sarangarh 1. Preparation of land for sowing of autumn crops continues. Fodder and water are sufficient. Prices are steady.

**Bombay.**—Good rain fell during the week in parts of Kaira, the Konkan, East Khandesh, Nasik, Poona, Satara, Mahi Kantha, Savantvadi and Kolhapur, moderate in Ahmedabad, the Panch Mahals, Broach, Ahmednagar, Sholapur, Bijapur, Dharwar, Kathiawar and Rewa Kantha and slight in Thar and Parkar, Surat, West Khandesh and Baroda. Standing crops are generally in good condition. Preparation of lands for autumn cultivation is progressing generally. Sowing continues in parts of Larkana, the Presidency Proper, Rewa Kantha, Savantvadi and Kolhapur. The fodder supply is adequate. Agricultural stock is deficient in parts of the Deccan and generally in good condition. Water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in Thar and Parkar, East Khandesh and Satara, have fallen in Surat and Kanara and are stationary elsewhere. The quantity purchasable per rupee is in Sind 3 to 33 per cent, in Gujarat 2 to 30 per cent, in the Konkani 13 to 25 per cent, in the Deccan 11 to 28 per cent and in the Karnatak 29 to 33 per cent less than the normal.

**Hyderabad.**—There was heavy rain in the Usmanabad and Adilabad districts and fair to good rain in other parts of the Dominions during the week. The average for the Dominions was 1 inch 75 cents. The highest falls recorded were:—5 inches 45 cents in Nirmal, 4 inches 67 cents in Jagtial, 4 inches 45 cents in Chinnur, 4 inches 32 cents in Hadgaon and 4 inches 15 cents in Kalan. Eight talukas received between 3 and 4 inches, 15 from 2 to 3, 39 from 1 to 2, 17 between  $\frac{1}{2}$  and 1 and 12 under  $\frac{1}{2}$  inch. Lands for autumn

crops are being prepared throughout the Dominions and borings are to be commenced in places. Water scarcity is experienced in parts of Mulug and Pakhal. Cattle disease is reported in four and fodder scarcity in six talukas. Prices :—Wheat 8½, coarse rice 7 and *juar* 14½ seers per rupee. White *juar* is selling at 12 seers in Hyderabad City. The highest price in the districts is 9 seers in Warangal and the lowest 24 seers in Mahbubnagar.

**Mysore.**—The rainfall was good in Hassan, Mysore, Kadur and Shimoga and slight elsewhere. Prices of food grains are generally steady. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

**Coorg.**—Rainfall 24 inches 63 cents. Ploughing for rice continues. Sowing of rice has commenced. Prices of food grains are normal. The public health is fair. Water and fodder are ample.

**Madras.**—The rainfall was very heavy in Malabar, heavy in the Nilgiris and Godavari, good in Ganjam, Vizagapatam, Kistna, Guntur, Chittoor, Trichinopoly, Salem and Madura, and light to fair elsewhere. Irrigation supplies are sufficient in Vizagapatam, Godavari, Guntur, Cuddapah, Coimbatore, Malabar and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, manuring, weeding and transplanting are in progress in parts. Standing crops are fair to good but coffee in parts of the Nilgiris is affected by bug. Harvests continue with outturn fair to normal generally. Pasture is sufficient in Vizagapatam, Madras, Salem, Tanjore and the Nilgiris. Fodder is available except in parts of Madura. The condition of cattle is generally good. The price of rice is stationary in six districts, has fallen in nine and has risen in nine. The prices of millets have fluctuated as follows :—*Ragi* is stationary in nine districts, has fallen in three and has risen in eleven. *Cholam* is stationary in five districts, has fallen in four and has risen in six. *Cumbu* is stationary in nine districts, has fallen in two and has risen in six. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is satisfactory and employment is available. Grain stocks are generally sufficient.

SUPPLEMENT TO  
**The Gazette of India.**

No. 25.]

CALCUTTA, SATURDAY, JUNE 24, 1911.

**OFFICIAL PAPERS:**

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such official papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

**WHOLESALE AND RETAIL PRICES IN THE SECOND HALF OF

Secretary to the Government of India.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 22nd June 1911, based on the Indian Daily Weather Reports of the period.**

1. The storm which affected northeast India during the previous week had practically disappeared on the 16th. Another depression had already, however, begun to develop at the head of the Bay, and this, crossing the coast on the 18th, caused a renewal of nearly general rainfall in northeast India.

The Arabian Sea monsoon was feeble throughout the week, and rainfall on the west coast was scanty. Telegrams from Mauritius, Zanzibar and Seychelles show adverse conditions of barometric pressure in the south Indian Ocean, which are sufficient to account for the present weakness of the monsoon on the west coast of India.

2. Temperature was very low over the northern half of the country at the beginning of the week, but by the 20th had risen to slightly above normal in the northwest. Elsewhere no persistent abnormalities occurred.

3. *Burma.*—Rainfall was nearly general in Lower Burma, while in Upper Burma it varied from nearly general to very local.

*Northeast India, including Orissa.*—Rainfall was light in the early part of the week, but subsequently spread northwards, and during the last four days falls were nearly general.

*The United Provinces, Central India and the Central Provinces.*—A few falls of rain were reported each day during the week. Moderately heavy falls occurred locally.

*Northwest India.*—A few falls, chiefly light, were reported each day until the 20th but subsequently no rainfall worthy of note occurred.

*The Peninsula.*—Rainfall was scanty and unusually light on the west coast, while from the inland districts only a few falls were reported.

4. The largest daily amounts of rainfall reported during the week were as follows:—

June 15th. Port Blair 4.76", Victoria Point 1.84", Mergui 1.89", Diamond Island 3.13", Cherrapunji 4.52", Chittagong 1.34", Nowgong 2.32", Sutna 3.04", Deesa 1.30", Ahmedabad 1.21", Mangalore 2.10", Calicut 1.76" and Mercara 1.40".

" 16th. Port Blair 1.79", Tavoy 4.55", Mergui 3.85", Moulmein 2.85", Bassein 1.72", Diamond Island 4.78", Kyaukpyu 1.88", Akyab 1.33", Thayetmyo 1.14", Cherrapunji 1.84", Darjiling 1.08", Naya Dumka 2.17", Burdwan 1.15", Lucknow 1.06", Saugor 2.02", Jaipur 1.33", Bombay 1.26", Belgaum 1.74", Mangalore 1.45" and Mercara 1.92".

" 17th. Mergui 3.67", Tavoy 3.35", Moulmein 4.32", Rangoon 1.93", Toungoo 1.92", Kyaukpyu 1.95", Akyab 2.50", Rhango 2.41", Calcutta 1.50", Jessore 1.59", False Point 2.51", Cuttack 1.97", Jhansi 1.49", Mainpuri 2.00", Dehra Dun 1.47", Chanda 1.92", Goa 2.30", Mangalore 4.49" and Mercara 3.35".

" 18th. Kyaukpyu 3.06", Akyab 4.73", Tezpur 1.81", Cherrapunji 3.47", Chittagong 2.41", Saugor Island 2.39", Berhampore 2.10", Darjiling 4.31", Hazaribagh 3.06", Ranchi 3.00", Chaibassa 3.22", Cuttack 3.88", Gorakhpur 3.26", Saugor 1.36", Raipur 1.24", Jalandpur 2.08", Calicut 1.78" and Cochin 2.50".

" 19th. Akyab 2.37", Cherrapunji 4.79", Chittagong 2.13", Calcutta 1.72", Darjiling 3.48", Ranchi 1.78", Hazaribagh 4.43", Gaya 1.70", Benares 1.23", Raipur 1.46", Coimbatore 1.80", Mercara 3.48" and Cotacamund 2.02".

" 20th. Kyaukpyu 1.97", Dibrugarh 1.81", Cherrapunji 7.27", Darjiling 2.84", Benares 1.63", Saugor 2.17", Jubbulpore 2.65", Pendra 1.34" and Mercara 2.97".

" 21st. Tavoy 2.80", Yamethin 1.15", Dibrugarh 2.29", Cherrapunji 4.18", Gorakhpur 1.20", Benares 1.34" and Allahabad 1.37".

5. Rainfall during the week was in great excess in a large part of northeast India, and in large defect in the greater part of the peninsula and of northwest India. During the period 28th April to 22nd June areas of large excess lay in the northeast and central parts of the country, in the Punjab and Mysore, and of corresponding defect in the Madras Deccan, Hyderabad South, and a large part of northwest India.

J. H. FIELD,

Offg. Director-General of Observatories.

E. D. MACLAGAN,

Secretary to the Government of India.

SIMLA;  
The 22nd June 1911.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,  
17th June 1911.

**Burma.**—The rainfall was heavy in the coast districts, light generally in the dry zone and moderate elsewhere. Sowing of hill-side rice is in progress. Ploughing for winter rice in Lower Burma is general. Reaping of summer rice in Upper Burma is approaching completion and ploughing for autumn rice is advancing. Ploughing and sowing of early sesamum, cotton and groundnut continue. Agricultural conditions are favourable. The price of unhusked rice has risen largely in Prome and slightly at four centres. It has fallen considerably in Sandoway and Amherst. Prices in Lower Burma generally and in Mandalay are high.

**Eastern Bengal and Assam.**—Heavy rain has fallen throughout the Province and has caused damage to standing crops in parts of Eastern Bengal. More sun is wanted for tea. Mosquito blight is reported from Cachar. Harvesting of *aus* rice is in progress. Transplantation of winter rice has commenced. The average price of common rice shows a tendency to rise. Cattle disease prevails in Mymensingh, Cachar, the Naga Hills, Goalpara, Kamrup, Darrang, Nowgong, Sibsagar and Lakhimpur.

**Bengal.**—Rain was general all over the Province. The fall was very heavy in the Sonthal Parganas, Burdwan, Birbhum, Bankura, Monghyr, Bhagalpur, Darjeeling and in the districts of the Presidency, Orissa and Chota Nagpur divisions and generally moderate in the rest of the Province. Sowing of paddy and weeding of jute continue but the operations have been temporarily retarded in Nadia and the Sonthal Parganas owing to the heavy rainfall. Some damage to standing crops is also reported from Murshidabad. The price of common rice has risen in Bankura, Murshidabad, Jessore, Saran, Monghyr, Cuttack, Angul and Cooch Behar and has fallen in Patna, Gaya, Ranchi and Manbhum. Cattle disease is reported from Midnapore, Nadia, Murshidabad, Patna, Champaran, Darbhanga, Sambalpur, Hazaribagh and Palamau. The fodder and water-supply is sufficient throughout the Province.

**United Provinces.**—Useful rain fell throughout the Provinces. It was sufficient in most districts to start ploughing and sowing for autumn crops. Harvesting of extra crops is nearing completion. Sugarcane is doing well and the general outlook is good. Cattle are in a satisfactory condition, only eight districts reporting the presence of disease. Fodder and supplies are ample. Exports of grain and oilseeds continue. Prices are generally stationary.

**Punjab.**—Good to moderate rain has fallen in all districts. Spring crops are still being harvested and threshed in a few districts. The condition of standing crops is good to average. Sowings of autumn crops continue. Locusts have damaged cotton and great millet in parts of Multan. Prices have risen slightly in some districts. Cattle are generally in good condition. Fodder is sufficient.

**North-West Frontier Province.**—Rain varying from 3 cents in Tank to 1·01 inches in Lakki fell during the week in the Dera Ismail Khan and Bannu districts and was beneficial to standing crops. No rain fell in Peshawar. The condition of standing crops on irrigated areas is fair and on unirrigated areas is average. The outturn of wheat and barley in Peshawar is average. There is no abnormal disease among cattle. The Tochi and Kutrarn rivers are in flood. Irrigation from the Paharpur canal continues. The fodder and water supply is generally sufficient except that water is reported to be scarce in certain villages of Dera Ismail Khan. Prices of food grains are fluctuating. Prices:—Wheat 15½ to 21½, maize 10½ to 20, gram 17½ to 23, and baira 22½ to 28½ seers per rupee.

**Jammu.**—Slight rain fell during the week. Prices are fluctuating. Wheat sells from 11 to 20 and maize from 16 to 30 seers per rupee. The condition of standing crops is fair. Fodder is sufficient.

**Kashmir.**—The weather was clear and very hot. Crops on unirrigated lands are withering for want of rain. There is no disease among cattle. Fodder is sufficient. Prices are unchanged.

**Rajputana.**—Rain fell during the week except in Sirohi. The maximum fall was 405 cents in the Hilly Tracts and Mewar and the minimum 24 cents in Jaisalmer. Ploughing and sowing are in progress. Cattle disease continues in Banswara. Fodder is sufficient. Prices have risen by 12 chataks in Mārwar, by 2 seers in Partabgarh, by 2½ seers in Tonk and by 1 seer in Bundi, have fallen by 8 chataks each in Kishangarh and Ajmer and by 11 chataks in Alwar and are practically steady elsewhere.

**Central India.**—The rainfall was partial and insufficient in Gwalior and Bhopal and general and sufficient elsewhere. The weather was cool. Timely rain has given an excellent start to tillage and land is under preparation for autumn crops. Sowing has commenced in Malwa, Bhopawar and some districts of Indore. Cattle disease prevails in parts of Gwalior, Baghelkhand, Bundelkhand and Bhopawar. Prices show a general downward tendency owing to the recent rainfall.

**Central Provinces.**—Rain fell during the week all over the Provinces. The principal falls in inches were:—Bilaspur 8, Balaghat 6 and Saugor, Narsinghpur, Raipur, Mandla and Boldana 4 to 5 and in the remaining districts the fall ranged from 12 cents in Nimar to 2½ inches in Akola. Rain is wanted in the Khandwa tahsil of the Nimar district. Preparation of land for autumn crops and sowing of rice, cotton, sesamum, *juar* and other crops are in progress. The supply of fodder and water is generally sufficient. Cattle are in good condition. Prices are steady.

**Feudatory States.**—During the week nine States had rain ranging from 1½ inches in Kawardha to 13½ inches in Nandgaon. Preparation of land for autumn sowings is in progress and sowing of autumn crops has commenced. The supply of fodder and water is adequate. Prices:—Rice fell by 2 seers in Sarangarh.

**Bombay.**—Good rain fell during the week in parts of Gujarat, the Konkan, Khandesh, Nasik, Poona, Satara, Belgaum, Kathiawar, Baroda, Mahi Kantha, Rewa Kantha, Savantvadi and Kolhapur and slight in Karachi, Hyderabad, Thar and Parkar, Ahmednagar, Sholapur, Bijapur, Dharwar, Palanpur and Cutch. The rainfall was general and beneficial but more rain is needed in Karachi, East Khandesh, Ahmednagar, Poona and Sholapur. Standing crops are generally in good condition. Preparation of lands for autumn cultivation is progressing. Sowing continues generally. Transplantation has commenced in Karachi, Hyderabad and Kanara. The fodder supply is adequate. Agricultural stock is deficient in parts of the Deccan and generally in good condition. Water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have fallen in Hyderabad, Sholapur and Bijapur and are stationary elsewhere. The quantity purchasable per rupee is in Sind 3 to 33 per cent, in Gujarat 2 to 30 per cent, in the Konkan 13 to 26 per cent, in the Deccan 11 to 28 per cent and in the Karnatak 23 to 31 per cent less than the normal.

**Hyderabad.**—The rain was heavy in Warangal, fair in the Aurangabad, Parbhani, Medak and Nizamabad districts and light in other parts of the Dominions. The highest falls recorded were:—7 inches 44 cents in Pakhal, 5 inches 10 cents in Mulug and 5 inches 9 cents in Sillo. Five talukas received from 4 to 5 inches, four between 3 and 4, thirteen from 2 to 3, seventeen between 1 and 2, nineteen from ½ to 1 and twenty-two under ½ inch. The average for the Dominions was 1 inch 20 cents. Cattle disease prevails in three and fodder scarcity in four talukas. Prices:—wheat 8½, coarse rice 7½ and *juar* 14½ seers per rupee. White *juar* is selling at 12 seers in Hyderabad City. The highest price in the districts is 9 seers in Warangal and the lowest 24 seers in Mahbubnagar.

*Printed and Published for the GOVERNMENT OF INDIA, at the GOVERNMENT CENTRAL PRINTING OFFICE, Simla.*

**Mysore.**—The rainfall was good in Mysore, Hassan, Kadur and Shimoga and slight elsewhere. Prices of food grains are generally steady. Markets are well supplied. Ploughing and sowing operations are in progress. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

**Coorg.**—Rainfall 12 inches 8 cents. Ploughing for and sowing of rice continue. Coffee prospects are good. Prices of food grains have risen slightly. The public health is fair. Water and fodder are ample.

**Madras.**—The rainfall was very heavy in South Canara, Malabar, the Vizagapatam Agency and the Nilgiris, good in Ganjam, Godavari, the Vizagapatam littoral and Kistna, nil in Chingleput, Madras, South Arcot, Chittoor and Trichinopoly and light to fair elsewhere. Irrigation supplies are sufficient in Vizagapatam, Godavari, Guntur, Cuddapah, Coimbatore, Malabar, South Canara and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, manuring, weeding and transplanting are in progress in parts. Standing crops are fairly good. Harvests continue with outturn fair to normal generally. Pasture is sufficient in Ganjam, Vizagapatam, Madras, Salem, Tanjore, Madura, South Canara and the Nilgiris. Fodder is available except in parts of Madura. The condition of cattle is generally good. The price of rice is stationary in eleven districts, has fallen in five and has risen in one. The prices of millets have fluctuated, as follows:—*Ragi* is stationary in ten districts, has fallen in five and has risen in eight. *Cholam* is stationary in five districts, has fallen in three and has risen in seven. *Cumbu* is stationary in ten districts, has fallen in two and has risen in five. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is satisfactory and employment is available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

Secretary to the Government of India.
